Agenda & Minutes

Review open action items from last week

Agenda	Minutes	p r e s e n t a t i o n s
PNF support/Modeling		

Action Items

- 1.ACTION: DCAE to connect between service & file. What DCAE component will read this information. Who is consuming the information. SERVICE CHANGE HANDLER is the DCAE "LISTENER" of SDC. Anyone can consume the SDC notifications.
- 2.ACTION: Investigate if DCAE needs/ expect same format? (unchanged from VES event registration document & records
- 3.ACTION: Does SDC need to do Modifications or processing? [FM] no additional mapping [PM]. Does DCAE-DS or DCAE need any modification to consume the data.
- 4.ACTION: SUBSCRIBING - Determine if #1 or #2 is needed: Subscribing to information. (1) new ARTIFACT TYPE can subscribe to that new type, DCAE makes new service, knows to download the new type, (2) all is packaged in the CSAR package.
- 5.ACTION - ARTIFACT TYPE: Application that receives the artifact needs to know what it is. Will DCAE try one way to read, or another. QUESTION do we need a new Artifact Type or can we reuse the DCAE_TOSCA, DCAE_JSON. Investigate if new artifact type is needed.
