The Road to Archived

Trigger	Condition	Arch Com	PTLs	TSC	Repo	Jenkins	OOM	Documentation
PTL initiates repo archived	Functionality not used in ONAP	Confirm no dependencies	Inform of deprecation for release	Approve deprecation	Read Only	Remove	Remove	Repo Archived
	Functionality in other supported repos	Scope work (R+1)	Integrate new interfaces (R+1)	Approve & track replacement	Read / Write	Retain	Retain	Repo Maintained
	Functionality not used in project but used in ONAP	Plan replacement (R+1)	Find new owner Define global adoption = R+1	Approve & track replacement	Read Only	Retain	Retain	Repo Maintained
	Repo not supported but functionality used in ONAP	Plan replacement (R+1)	Find new owner Define global adoption = R+1	Approve & track replacement	Read Only	Retain	Retain	Repo Unmaintained
Project loses PTL support	Functionality not used in ONAP	Confirm project unneeded	Inform PTLs of deprecation for release	Approve deprecation	Read Only	Remove	Remove	All Repos Deprecated
	Functionality used by other projects	Identify new source of features	Develop POC + global adoption timeframe	Approve & track replacement	Read Only	Retain	Retain	All Repos Unmaintained
