Subject: SDNC Committer promotion proposal - Ryan Goulding

SDNC committers,

I would like to propose promoting Ryan Goulding (Inocybe Technologies) to committer for the SDNC project to replace Marcus Williams, who has moved over to the SO project.

Ryan has been an active contributor to both CCSDK and SDNC in both Amsterdam and Beijing, and is also an active contributor to the OpenDaylight project. He has already also done code reviews for us , which was extremely helpful particularly with our port to Nitrogen.

Please reply to this email with +1 if you approve Ryan's promotion.

Thanks!
Dan
