主题: Vote for new **committees** in VF-C project

Hi all VF-C **committees**,

Based on the contribution in VF-C project Beijing release, I would like to promote Denes and Haibin as VF-C **committer**.
Denes is the highest code contributor in VF-C and made great help during volte integration testing.
Haibin contributed to the R2 VNFD parsing and the CPE use case integration and testing.
Please provide your voting +1/-1/0. Thank you.
Voting ends at 5:00 pm on July 2,2018

Best Regards,
Yan
