**Subject:** CCSDK committer promotion : Brinda Santh Muthuramalingam  
**Importance:** High

Nicolas, Jack, Gaurav:

I would like to propose promoting Brinda to committer status for the CCSDK repositories that support CDS / SDNC. The formal committer proposal is on the wiki here :  
<https://wiki.onap.org/display/DW/Committer+Promotion+Request+for+CCSDK+-+Brinda+Santh+Muthuramalingam>

Brinda is one of the development leads for the CDS project, and unofficially acted as committer for the CDS work in Dublin (I asked him to +1 the CDS commits that were ready to merge). He's been an outstanding contributor and I hope you'll agree he has well earned an official role as committer.

Please reply to this with your email with your approval/disapproval. I'd appreciate if you could reply by EOD tomorrow (7/10) so that I can formally request the TSC to approve this promotion at their meeting this Thursday.

Thanks!  
Dan
