Shankar,
+1
I fully support Arthur for the OOF Committer role.

Subject: Requesting a vote for Arthur's committer promotion

Dear OOF Committers,

As we all know, OOF has been growing as a project supporting an increasing number of use cases over the past releases. To aid this growth, it would be essential for us to have committed engagement from folks who are actively contributing to the project. In this regard, it will be wonderful if we can have Arthur promoted as a committer for the project, especially given his active involvement in OOF and FGPS over the last year. Apart from OOF, he has been actively engaged with other projects in ONAP including SO.

Here's the page I had created listing his contributions for the promotion request:

https://wiki.onap.org/pages/viewpage.action?pageId=71837098.

As required by the ONAP committer promotion process, please send in your votes as a response to this email.

Thanks,
Shankar.
