Objective:
Reorganize (by creating appropriate links in the documents) based on Personas / Usage

Features List:
Below features/functionality (prioritized list) will be tested based on the time:

- Installation & upgrade procedure, E2E beginning form download, install, create and 1st service instance up and running (hello world!)
- "core implementation bundle" description.
    - Minimum set of ONAP components required for basic operations.
- Deep dive tutorials, if doesn't exist:
    - How to use SDC
    - How to use DCAE
- Validate Backup, upgrade and restore procedure.
- User Guide content for other functionality - CDS, A&AI etc.
- Deep dive tutorial of how to use SO and CDS

Milestone Plan:
Documentation sections divided into multiple milestones accordingly based on Personas/Usage. Below is the High level milestone plan

Milestone	Doc Section	Main Components	Sub Components
MS1	Operations and Administration Guides	Setting UP ONAP	oom_cloud_setup_guide
			oom_quickstart_guid
			oom_user_guide
	User Guides	Design Time (Basic)	Pre-Onboarding
			Resource Onboarding
			VF Creation and Testing
			Service Design
			Service Distribution
	Tutorial	vFW Design (Basic)	
	User Guides	Run-Time (Basic)	Pre-instantiation operations
			Declare PNF instances
			Instantiate a Service
			Instantiate a VNF

			Instantiate a Virtual Link
	Tutorial	vFW Deployment (Basic)	
MS2	Operations and Administration Guides	Platform Operations	ONAP Operations
			ONAP Testing &Monitoring with RobotFramework tool
			ONAP Testing &Monitoring with Consul tool
			ONAP Backup and Restore
			DCAE Deployment Validation
			DCAE Health Check
	User Guides	Design Time (Advanced)	VNF parameter resolution Design
			Policy Design
			VNF LifeCycle Command templating
			Workflow Design
			Control Loop Design
			DCAE MOD User Guide
	Tutorial	vFWCL Design	
	User Guides	Run Time (Advanced)	Pre-instantiation operations
			Control Loop Automation Management
			DCAE MS Deployment
			DMaaP
	Tutorial	vFWCL Deployment	
MS3	CDS	Design	VNF parameter resolution Design
		Tutorial	Basic tutorial that goes through CDS
MS4	SO	Workflows	Adding new workflows
		Tutorial	Basic Tutorial that goes through SO
