主题: [VFNSDK] Committer request for Bartosz Gardziejewski

Hi,

I would like to ask you to give your vote on my colleague Bartosz Gardziejewski.

I think that he should become a committer in VNFSDK project. Since a half year he actively contributes to VNFSDK project, he resolves a lot of bugs and adds new functionalities.

I've prepared for him a committer request form, but I need your votes 😊

<https://wiki.onap.org/display/DW/Committer+Promotion+Request+for+%5BVNFSDK%5D+--+Bartosz+Gardziejewski>

At that the link, you can check how many contributions Bartek has done and I hope he will do more in the future 😊

I don't know how many of you are still working in ONAP, but I hope that you will reply to this email.

Thank you in advance.

Repositories the new Committer should be granted permissions to:

vnfsdk/validation

vnfsdk/refrepo

vnfsdk/model
