VNF Requirements Project

VNF Requirements are published with each release. You can find them in the general ONAP released documentation at [docs.onap.org](http://docs.onap.org). The versions are selectable by release (look for the "v: Amsterdam" pulldown menu in lower right). The latest version is [here](http://docs.onap.org).

Release notes are available [here](http://docs.onap.org).

A consolidated list of all requirements is provided in Chapter 9 for use in RFP responses etc.

From the Beijing Release, there is additional information on Test Case Descriptions and associated VNF requirements available [here](http://docs.onap.org).

To comment on VNFRQTS deliverables either raise a JIRA bug report or send an email to the onap-discuss list with "[vnfrqts]" in the subject line.

Release Planning

Tasks

See VNFRQTS JIRA Project

Agenda & Notes Archive

See VNFRQTS Project Meetings

Project Relationships

LFN code of conduct applies [https://lfprojects.org/policies/code-of-conduct/](https://lfprojects.org/policies/code-of-conduct/)

Community Participation

ONAP measures community participation using the Bitergia tool.

Bitergia view of vnfrqts

ONAP procedures for committer promotion requests require consideration of community activity.
