# 2021-04-08 Doc project meeting

## Attending

Andreas Geissler  
Timo Perala  
Thomas Kulik  
Eric Debeau

## Topics, Notes, Status and Follow-Up Tasks

<table>
<thead>
<tr>
<th>Topic</th>
<th>Notes / Status / Follow-up</th>
</tr>
</thead>
</table>
| Thomas Kulik | New Documentation Tracking Page (Work in Progress!)  
https://wiki.onap.org/c/2dR9 |
| Eric Debeau | Status Composite Release Note |
| Andreas Geissler | Status Honolulu Branch for DOC Project |
| All | Collection of topics not started  
- Dedicated repo for every subcommittee (that creates and maintains formal ONAP documentation)? To be discussed.  
- Fix ReadTheDocs starting page to the last official release (and not ‘latest’)  
- Add tracking information to the new docs tracking page (currently WIP!!!) To be discussed. |

### Jira ticket walkthrough.

### Objectives for Honolulu (and onwards)

- The team will investigate further with the OOM team on how to enable a non-voting job for warnings.

### Guin Maintenance Release

- All done for the doc project (date in the release note might need to be updated). Still lacking some project updates

### Architecture documentation

- For future collaboration and facilitation we will ask for a time slot in the arch subcommittee meeting to inform and educate how to work with docs.  
https://gerrit.onap.org/r/c/doc/+/115497  
- The next doc weekly is dedicated to the Architecture Navigator. See also ONAP Web Based Architecture Navigation Solution. Invite Chaker Al Hakim.

### Documentation tracking

- David McBride will join to discuss this further.  
- Active projects vs maintenance projects.  
- A weekly meeting was scheduled to align doc topics with RelMgr
Many links are managed in RTD
- local links within a repo
- inter-project links using inter-links from sphinx
- links to code repo
- external links to web sites

There is a problem when a documentation link points to a repo => the branch is not indicated. As result, the link points to the latest release.

Proposition to provide guidelines to be then presented for PTL.

Many links are broken => need to include a test in JJB and provide information about broken links.

Feedback has been given, positive output. Next step, bring to PTL.

Still required from the project to test.

Andreas Geissler showed a solution to create project docs manually within gerrit in case a project has branched but not changed any doc file in the new branch afterwards.
