### CLAMP R3 - M4 Code Freeze Milestone Checklist

The following items are expected to be completed for the project to Pass the M4 Code Freeze Milestone.

M4 Release Code Freeze Milestone overview is available in wiki.

<table>
<thead>
<tr>
<th>Practice Area</th>
<th>Checkpoint</th>
<th>Yes/No</th>
<th>Evidences</th>
<th>How to?</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Product Management</strong></td>
<td>Have all JIRA Stories supporting the release use case been implemented?</td>
<td>Yes</td>
<td>17 issues</td>
<td>For M2 and M3 Milestones, ensure all findings have been closed.</td>
</tr>
<tr>
<td></td>
<td>List the Stories that will not be implemented in this current Release.</td>
<td>Yes</td>
<td>31 issues</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Are committed Sprint Backlog Stories been coded and marked as “Closed” in Jira?</td>
<td>Yes</td>
<td>80 issues</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Are all tasks associated with committed Sprint Backlog Stories been marked as “Closed” in Jira?</td>
<td>Yes</td>
<td>18 issues</td>
<td></td>
</tr>
<tr>
<td><strong>Release Management</strong></td>
<td>Have all issues pertaining to FOSS been addressed?</td>
<td>Yes</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
|                                | Have all findings from previous milestones been addressed?                  | Yes    | No specific findings | For evidences, provide link(s) to Gerrit repos by providing the URL as shown in this example
|                                | Has the Project Team reviewed and understood the most recent license scan reports from the LF, for both (a) licenses within the codebase and (b) licenses for third-party build time dependencies? | Yes | | clamp Gerrit sonar link |
|                                | For both (a) and (b), have all high priority non-Project Licenses been either removed or escalated as likely exception requests? | Yes | Nexus IQ report | |
| **Development**                | Are all Defects of priority Highest and High in status “Closed” in Jira?    | Yes    | 2 issues  | For evidences, provide link(s) to Gerrit repos by providing the URL as shown in this example
<p>|                                | Has the project team reach the Automated Unit Test Code Coverage expectation? (Refer to artifacts available in Sonar) | Yes | Goal: 50% for Incubation project in Beijing | clamp Gerrit sonar link |
|                                | Is there any binaries (jar, war, tar, gz, gzip, zip files) in Gerrit project repository? | No | | Refer to CI Development Best Practices |
|                                | Is there any pending commit request older than 36 hours in Gerrit?          | No | | |
|                                | Provide the &quot;% Achieved&quot; on the CII Best Practices program.                | 98%    | <a href="#">CII best practices</a> in progress | 98% | As documented in CII Badging Program, teams have to fill out CII Best Practices |
|                                | Is there any Critical and Severe level security vulnerabilities older than 60 days old in the third party libraries used within your project unaddressed? | Yes | In the case critical known vulnerability are still showing in the report, fill out the Security Vulnerability Threat Template in your project. | nexus IQ report | Ensure the Nexus-IQ report from “Jenkins CLM” shows 0 critical security vulnerability. Open the Nexus-IQ report for the details on each repo. |
|                                | Nexus-IQ classifies level as the following:                                |        |           |                                                                        |
|                                | • Critical is level 7 to 10                                                 |        |           |                                                                        |
|                                | • Severe is level 4 to 6                                                    |        |           |                                                                        |
|                                | • Moderate is level 1 to 3                                                  |        |           |                                                                        |
|                                | which is complaint with CVSS V2.0 rating.                                  |        |           |                                                                        |
|                                | Are all the Jenkins jobs successfully passed (verify + merge jobs)?         | Yes | CLAMP jenkins tab |
|                                | Have all OOM Staging Healthcheck related to your project passed?           | Yes | | Provide link to clamp Nexus |
|                                | Are all snapshot binaries available in Nexus-staging?                     | Yes | | Contact the upstream teams to make sure they will release their artifacts (in Nexus Release repo) so you can build by depending on these released artifacts by RC0. |
|                                | Do you have a clear plan to implement the Independent Versioning and Release Process by RC0? | Yes | | |</p>
