# 2021-05-06 Doc project meeting

**Attending**

Timo Perala  
Thomas Kulik  
Eric Debeau  
Andreas Geissler

**Topics, Notes, Status and Follow-Up Tasks**

<table>

<tbody>
<tr>
<td><strong>AGENDA FOR TODAY</strong></td>
<td></td>
</tr>
</tbody>
</table>
| **Open gerrit issues**        | We went through the open gerrit issues for Honolulu release  
Andrea Visnyei: please update https://gerrit.onap.org/c/doc/+/116252 (add link as an exception in conf.py, then it should work)  
Guides to be tested in every new release by doc team. Automation possible? |
| **Open Jira tickets**         | We went through the open Jira issues for Honolulu release  
Thomas Kulik: Propose that every project should use tox.ini (incl. link checks)? Create a new Epic for this? conf.py must be updated as well! |
| **Sprints**                   | Should we structure our (doc) work in sprints?  
Thomas Kulik: Ask for DT-internal help to set up this structure. Eric Debeau and Andreas Geissler will help as well. |
| **New Doc Tracking Page**     | Now active for Istanbul release. See  |
| **Guide Doc Dev System**      | Currently under development (txt version available; transfer to rst at 90%); Timo Perala volunteers for review.  
19.05.2021: The reviewed version (ready for submit) can be found [here](https://example.com) |
| **Upcoming Meetings**         | 13.05.2021: No meeting due to public holiday.  
20.05.2021 and 27.05.2021: Thomas Kulik Vacation. |
| **OPTIONAL (IF TIME ALLOWS)** | Collection of topics not started  
[DOC] Dedicated repo for every subcommittee (that creates and maintains formal ONAP documentation)? To be discussed.  
[DOC] Fix ReadTheDocs starting page to the last official release (and not 'latest')  
[DOC] add tracking information to the new docs tracking page (currently WIP!!!) To be discussed. |
Objectives
for Honolulu (and onwards)

Jira ticket walkthrough,

5 issues

The team will investigate further with the OOM team on how to enable a non-voting job for warnings.

Check why closes ticket show up even when the filter is set to “Open” or “In progress”

All done for the doc project (date in the release note might need to be updated). Still lacking some project updates

For future collaboration and facilitation we will ask for a time slot in the arch subcommittee meeting to inform and educate how to work with docs.

https://gerrit.onap.org/r/c/doc/+/115497

The next doc weekly is dedicated to the Architecture Navigator. See also ONAP Web Based Architecture Navigation Solution. Invite Chaker Al-Hakim.

David McBride will join to discuss this further.

Active projects vs maintenance projects.

A weekly meeting was scheduled to align doc topics with RelMgr.

Many links are managed in RTD

- local links within a repo
- inter-project links using inter-links from sphinx
- links to code repo
- external links to web sites

There is a problem when a documentation link goes to a repo => the branch is not indicated. As result, the link points to the latest release

Proposition to provide guidelines to be then presented for PTL

Many links are broken => need to include a test in JJB and provide information about broken links

Feedback has been given, positive output. Next step, bring to PTL

Still required from the project to test

Create project docs manually with gerrit in case a project has branched but not changed any file in the new branch afterwards

Andreas Geissler showed a solution to create project docs manually within gerrit in case a project has branched but not changed any doc file in the new branch afterwards. There are extended right in gerrit needed.
