

# 2021-06-30 Meeting notes (ONAP/O-RAN-SC/SMO - Meeting) - Agenda

30 Jun 2021 | 9am PDT | noon EDT | 16:00 UTC | 18:00 CEST | 21:30 IST

ZOOM: <https://us02web.zoom.us/j/89069708424?pwd=aGJOZm54eTUxd0FXR0VCU1N0ejBrUT09>  
Meeting ID: 890 6970 8424

## Attendees

- Alex Stancu ★
- Abhinav Singh
- Alessandro Gerardo D'Alessandro
- Amar Kapadia
- Amy Zwarico
- Andrea Buldorini
- Andrew Lamb ★
- Andy Mayer
- @Anh Le
- bhanu chandra
- Claudio David Gasparini ★
- Christophe Closset ★
- Damian Nowak
- bhanu chandra ★
- Dibas Das
- @Dmytro Gassanov
- emmanuel sarris
- Fernando Oliveira ★
- Gervais-Martial Ngueko ★
- Grzegorz Wielgosinski
- HariomGupta(HCL) ★
- Joachim Blixt
- John Keeney ★
- Kamel Idir ★
- user-7f92d
- Konrad Baka
- Kuldeep Negi
- Lasse Kaihlavirta
- Lathishbabu Ganesan
- Manoj Nair
- Martin Skorupski ★
- marcin krasowski ★
- Marcin Wilk ★
- NICHOLAS KARIMI MUIGAI ★
- Michela Bevilacqua
- N.K. Shankaranarayanan ★
- Paulo Costa
- Pawel Slowikowski
- Ruslan Kashapov
- Sonia Sangari ★
- Scott Blandford ★
- subhash kumar singh
- Swaminathan Seetharaman
- Timo Perala ★
- @Vidhu Pandey ★
- William Diego Maza ★
- Zu Qiang (Ericsson) ★
- Sven van der Meer

## Informed

- Andrea Buldorini
- Alexander Dehn
- George Clapp
- Herbert Eiselt
- KAPIL SINGAL
- Tracy Van Brakle

## See also

- [2021-06-30 Meeting notes - Joint OAM / NONRTRIC / SIM SCRUM meeting](#)

## Goals

- share information between
  - O-RAN-SC Non-RT-RIC
  - O-RAN-SC OAM
  - O-RAN-SC O-DU
  - ONAP CCSDK/SDNC/SDN-R
  - LFN 😊

## Recording

- [Recording \(MP4 low-res\)](#)

Please add/remove yourself. Thanks!

- REF: 2 Weeks ago: Proposal for an ONAP deployment specific for an ORAN SMO
  - Ref: <https://jira.onap.org/browse/REQ-887>
- @Christophe : Meeting upcoming
  - Every Friday:
    - <https://lists.onap.org/g/onap-meetings/viewevent?repeatid=37969&eventid=1192141&calstart=2021-06-25> bhanu chandra
    - <https://wiki.onap.org/pages/viewpage.action?pageId=103422272>
    - (Updated afterward: Minutes & Recording: <https://wiki.onap.org/display/Meetings/2021-06-25+Meeting+notes>)
  - Attempting to replicate functionality in OSC OAM/NONRTRIC/SIM demo - based on OSC charts.
    - Mainly updating charts etc.
    - Certs need updating
  - Will be testing in ONAP WindRiver lab - setup etc. Might be a good place to collaborate.
- John Keeney Any update on how to reuse OSC & other external components?
  - @Christophe, will be challenging in OOM, & need to reuse structure & some charts from OOM
- John Keeney Any ideas where SMO would be different from "Full ONAP"
  - @Christophe: Plan to start with OSC charts/flavour ... then depends on Usecases ...
  - Hope to be able to make use of the override files to create different flavours .. aiming for something similar to OSC version
    - Ref [Closed loop use case & "D" Release - Closed Loop Use Case: Simulation of O-RU and O-DU & "D" - Closed Loop Use Case](#)
- John Keeney Probably need different versions for different usecases
  - @Christophe ... OOM have this same idea to have multiple flavours. Discussion gets broader when non-ONAP components are added.
- @NK Shankar ... Should also consider SON and Slicing usecases.
- John Keeney Recall that the OSC D release usecase is not real world ... and will mature in coming releases. Currently mostly treated as an integration requirements driver
  - Ref [Closed loop use case & "D" Release - Closed Loop Use Case: Simulation of O-RU and O-DU & "D" - Closed Loop Use Case](#)
- @Christophe @NK Shankar Need to consider diversity of DCAE components used. Also need to figure out how different simulators could co-exist.
- Lets continue discussions on Friday Call?

**INFO from Christophe - 2021-06-30:**

Just a few notes:

- We have agreed with ONAP and other members of O-RAN SC to keep an ad-hoc call on Friday to discuss technical details for now (will remove this meeting once all details are sorted out and use the joint meeting to report status)
- Main comment from John is that we cannot consider an SMO deployment without having a way to deploy Non-RT-RIC as well as ONAP components (hence a debate on how this should materialize : extend OOM? )
- We have progressed on the POC in the meanwhile, Sebastien had an idea and has pushed a small repository on github to show what we are doing for now to create a unique installation for O-RAN, trying to implement the following idea:
  - Started from IT/DEP repo, containing some Helm charts for O-RAN (including Non-RT-RIC)
  - Seems an embryo of using ONAP charts to deploy SMO components but sounded like a fork of ONAP charts
  - Instead of copy pasting OOM charts, he create a git submodule referring to oom ONAP charts repo (to keep ONAP untouched)
  - Rework the O-RAN charts to map them to the OOM structure (like OOM'ized O-RAN charts)
  - Try and build (created some makefiles, inspired from ONAP) then push them to a single chart repository
  - Merged ONAP override and O-RAN override to have a single file
  - Created an Install script to deploy the charts in a single Namespace
  - ... it worked more or less

We plan to show that maybe on Friday call (<https://wiki.onap.org/pages/viewpage.action?pageId=103422272>)
