## Topics scheduled for review

(Back to "Quick References")

| Presenting Order | Sponsor(s)/Presenter(s) | Duration | Topic | Referenced Docs or JIRA | Comments |
|------------------|-------------------------|----------|-------|-------------------------|----------|
| 1st              |                         |          |       |                         |          |
| 2nd              |                         |          |       |                         |          |

## Meeting Recording

### 2021-Oct-19 ArchCom Meeting Recording

(Back to "Quick References")

## Item(s) that might be of interest

- [FYI \(GitHub Basic Password Authentication Deprecation\)](#)

"Basic authentication using a password to Git is deprecated and will soon no longer work. Visit <https://github.blog/2020-12-15-token-authentication-requirements-for-git-operations/> for more information around suggested workarounds and removal dates."

## Next week Agenda Candidates

### Ongoing Studies Proposed at the LFN DDF June 2021

(Back to "Quick References")

- AAF vs. Istio + keycloak + cert manager + Ingress (functional comparisons and rationale)
  - This study and proposal were presented at the LFN DDF June 2021.
  - For the presentation and meeting recording, please visit, <https://wiki.lfnetworking.org/display/LN/2021-06-08+-+ONAP%3A+Next+Generation+Security+and+Logging+Architecture%2C+Design+and+Roadmap>
  - wiki page for the latest information, [ONAP Next Generation Security & Logging Architecture](#)
- Magma architecture and interaction with ONAP review (discussion with SECCOM; once the study is settled, we plan to present the proposal /information, along with SECCOM)
  - Deployment Architecture (how Magma is deployed along with ONAP)
  - Function Architecture (what is the Magma main functions; for now, AMF, SMF, UPF; how does Magma support functional extension?)
  - Interface Architecture (how Magma would interface with ONAP)
  - Security Architecture

- Outcome: ONAP for Enterprise Business including ONAP/Magma integration was presented at the LFN DDF June 2021. For the presentation slide deck and meeting recording, please visit, <https://wiki.lfnetworking.org/display/LN/2021-06-08+-ONAP+TSC+Task+Force%3A+ONAP+For+Enterprise+Business>

**Test Plan:**

platform changes planned.

**Meeting Notes:**

- Verify the removal of DCAE information from the architecture
- What is the usage of FCAPS Management Function referred in the item 2. SDC Component Description
- If there is a change in the VNF model, currently based on the ETSI 2.5.1 version, it is probably necessary to change something in the VNF documentation
