The ONAP community chose to re-name the "K" release (originally "Kyoto") in honor of the late CNCF Executive Director, visionary, entrepreneur, and open source advocate and pioneer, Dan Kohn, who passed in the fall of 2020. More information about Dan here.

09/14 /22	r6	It appears that there was a misunderstanding about M3 on Sept 1. The TSC chair tells me that the intention was actually to move both M3 and M4 to the same date on Sept 22. Schedule is updated to reflect that.	M3

05/19 /22	r1	Identified a conflict between M1 and Ascension Day on May 26, due to Ascension Day not being on the original schedule. Proposed moving M1 to June 9 and M2 to June 30. Need to review with PTLs and then vote in TSC on June 2. Added Ascension Day.	M1, M2
