Archived: Configuration Persistence Service Jakarta Meeting Notes & Recordings

Minutes

Date	Attendees	Agenda / Notes
14 Oct 2022	Please continue to Configuration Persistence Service London Meeting Notes & Recordings	
07 Oct 2022	Arun Subramanian (Fujitsu) Arne Chrestin Lena Peuker (DT) chris_k Tony Finnerty Priyank Maheshwari Lukasz Rajewski Sourabh Sourabh Luke Gleeson Micha Jagieo Andras Zoltan Kiss Levente Csanyi Joseph Keenan Lee Anjella Macabuhay Arpit Singh Rudrangi Anupriya rajesh kumar Kamel Idir	• Luke Gleeson Discussion around **CPS-1221** - Getting issue details... STATUS ◦ Requirement DT (Lukasz Rajewski) : support modifications across multiple Anchors and/or multiple fragment under on anchor ▪ Scope: CPS Only (for now) ◦ Architectural Issues(Tony Finnerty) ▪ Distributed transactions hard to support in MicroServices environment, strategy is 'eventual-consistency' instead ◦ Possible future solutions ▪ Batch Operation against multiple anchors (cm handles) ▪ Support Yang-Patch operation for non-passthrough (cached) data ◦ Above solutions can be added to CPS as part of a specification for London release • Micha Jagieo support different devices (namespaces) under one root Explained Private Properties in ONAP DMI PLugin could be used to handle this with some additional modifications Not quite clear whether one cm-handle or multiple cm handles woud be used for such a device. Michal wants to await completion of multi-root functionality before considering new requirements for CPS • Kohn/London status ◦ Branch created (for CPS Core) ◦ User Stories can go ahead and be merged ◦ Bugs once merged 'cherry pick' to Kohn branch as needed ◦ Toine Siebelink has created an page for these meeting in the London release (to be used form next week) : Configuration Persistence Service London Meeting Notes & Recordings • SoftwareStatus ◦ Lena Peuker explain background on **CPS-1327** - Getting issue details... STATUS ◦ Micha Jagieo needs some help implementing **CPS-1257** - Getting issue details... STATUS Toine Siebelink will call dedicated meeting for this next week

30 Sep 2022	Toine Siebelink LEILA NISHIMWE Kamel Idir Luke Gleeson Andras Zoltan Kiss Joseph Keenan Priyank Maheshwari Lee Anjella Macabuhay Aditya Puthuparambil Levente Csanyi YASHWANTH GANDHAPU Arpit Singh rajesh kumar Rudrangi Anupriya Ahila P D avid Terwilliger	• SoftwareStatus
		  ◦ **CPS-1294** - Getting issue details... STATUS Toine Siebelink will ass comment with stakeholder decision. handling of notification (kafka) errors in this use case
		• Discuss **CPS-1301** - Getting issue details... STATUS it was agreed that the expected behavior is to insert prefix only when new modules occur as per the usual convention. This is a known and documented limitation in CPS and therefore not a bug. Agreed with David Terwilliger to take this as a high priority requirement for the London Release as part of a 'Feature' request from Fujitsu on CPS (the process was explained during the meeting)
		• New Joiners,welcome!
		  ◦ Levente Csanyi Ericsson Ireland
		  ◦ LEILA NISHIMWE Bell Canada
		• Code Freeze
		  ◦ Release Planning: Kohn
		  Codo freeze still in place, decision postponed to 03 Oct 2022
		  ◦ Release Planning: London (R12)
		  Team will start as soon as code freeze is over R12 Planning started already: CPS R12 Release Planning
		
		• Implementation Proposals London and Template
		Template available for new user stories: CPS-<####>: Implementation Proposal Template

23 Sep 2022	Toine Siebelink Andras Zoltan Kiss Micha Jagieo Lee Anjella Macabuhay Luke Gleeson Tony Finnerty Joseph Keenan Sourabh Sourabh Lukasz Rajewski Arun Subramanian (fujitsu) David Terwilliger M Santosh Kumar Arpit Singh YASHWANTH GANDHAPU Rudrangi Anupriya rajesh kumar	• SoftwareStatus
		  ◦ Lukasz Rajewski explained bug **CPS-1258** - Getting issue details... STATUS . T oine Siebelink will revert back but is concerned this could be an ODL limitation which required a CPS based workaround before the data is parsed.
		• Micha Jagieo explained **CPS-1265** - Getting issue details... STATUS it was agreed that the RFC does allow Yang modules without a revision. CPS needs to be able to accept that (handle it as an empty String) This ticket has no been converted to a bug.
		• Code Freeze, when can we create new branch?Team agreed to await M4 decision on 29 Sep 2022 because of possible issues with jobs that build release images from master branch. A Feature branch could be considered if it takes much longer.
		  ◦ Release Planning: Kohn
		  ◦ Release Planning: London

16 Sep 2022	Priyank Maheshwari Luke Gleeson Sourabh Sourabh Tony Finnerty YASHWANTH GANDHAPU Arpit Singh rajesh kumar Arun Subramanian (fujitsu)	• SoftwareStatus
09 Sep 2022	Luke Gleeson Priyank Maheshwari Sourabh Sourabh Tony Finnerty Micha Jagieo YASHWANTH GANDHAPU Arpit Singh Aditya Puthuparambil David Terwilliger	• SoftwareStatus • Priyank Maheshwari will Demo **CPS-1001** - Getting issue details... STATUS

02 Sep 2022	Toine SiebelinkLee Anjella Macabuhay Priyank Maheshwari Sourabh Sourabh Micha Jagieo Joseph Keenan Tony Finnerty YASHWANTH GANDHAPU rajesh kumar Arpit Singh Rudrangi Anupriya Aditya Puthuparambil Arun Subramanian (fujitsu) David Terwilliger	• Lee Anjella Macabuhay demo for **CPS-1136** - Getting issue details... STATUS
		  ◦ Documentation updates need to done; YAML FIle(s) adn Release notes (A/C of Jira updates)
		• SoftwareStatus
		• M3 Milestones
		  ◦ M3 postponed by on week at least until 08 Sep 2022

26 Aug 2022	Toine Siebelink Arun Subramanian David Terwilliger Sourabh Sourabh Lee Anjella Macabuhay Priyank Maheshwari Joseph Keenan Luke Gleeson Tony Finnerty Jithendra Kumar Veeravalli Arpit Singh rajesh kumar Rudrangi Anupriya YASHWANTH GANDHAPU	• Rudrangi Anupriyapresented CPS-1221 CPS Xpath search capability Enhancements
		  ◦ Requirement becoming clearer, Wik i needs some improvement like separate of different work items (future Jira's)
		  ◦ Toine Siebelink wil add inline comments on wiki
		• Arpit Singh presented CPS-341 Spike: Support multiple data tree instances under 1 anchor
		  ◦ Need to consider both multiple root containers and yang 'list' as top elements,. This might affect API impacts
		  ◦ Toine Siebelink wil add inline comments on wiki
		• SoftwareStatus
		  ◦ Review, review & review 😃
		• M3 Milestones
		  ◦ Code freeze next week!
		  ◦ New Jira should be using Next release for tagging: Londen

19 Aug 2022	Toine Siebelink Lee Anjella Macabuhay Arne Chrestin Priyank Maheshwari Joseph Keenan Aditya Puthuparambil Sourabh Sourabh Tony Finnerty Andrew Arpit Singh Andras Zoltan Kiss	• Priyank Maheshwari demo of **CPS-1034** - Getting issue details... STATUS Observation: when State goes to locked lock-reason details etc are NOT in the event Positive feedback, user story and work item related to it can now be closed 🙂 • SoftwareStatus ◦ Aditya Puthuparambil has added Jira to handle different pre-fixes for module names in output and will this put on agenda for R11 backlog meeting ◦ Joseph Keenan wil share proposal for data loading improvements with Tony Finnerty ◦ DT Team has several proposals in progress and wil arrange meeting with full team to discuss them next week ◦ **CPS-1126** - Getting issue details... STATUS remains main priority, several teem members are helping out now
12 Aug 2022	Toine Siebelink Lee Anjella Macabuhay Arne Chrestin Priyank Maheshwari Joseph Keenan Andras Zoltan Kiss Lukasz Rajewski Sourabh Sourabh Dylan Byrne Tony Finnerty Aditya Puthuparambil Andrew Micha Jagieo Arpit Singh rajesh kumar anu kumari YASHWANTH GANDHAPU	• Lee Anjella Macabuhay demo of **CPS-1168** - Getting issue details... STATUS / **CPS-1133** - Getting issue details... STATUS to close W.I. 9 in R11 ◦ All good, user story and W.I. 9 can now be closed • Lee Anjella Macabuhay present findings on **CPS-1153** - Getting issue details... STATUS ◦ Scope of user story limited to this investigation, Lee Anjella Macabuhay wil create a follow up user story for implementation and a Spike re. the requirements for DB/Yang model updates probably without using Liquibase ◦ Spike has proven dat model can be split without any consequences for the format of the data ie. the data is backward and forward compatible • Rudrangi Anupriya presented a proposal for **CPS-1131** - Getting issue details... STATUS ◦ Proposal is comprehensive but need to be converted to a CPS Wiki Page ◦ Some functional requires separate mention, further study and separate future Jiras such as ▪ 'limit' query parameter(?) to return a limited amount of nodes ▪ '*' representing all possible child containers or even descendants? ▪ brackething i.e. combining several logical operators using brackets ◦ The need/priority of cpsPath extensions should be driven by the real world need of business use cases. ◦ any cpsPath extension need to consider the impact of the SPI (Service Provide Interface) and thus the feasibility to remain database base technology agnostic, think of an extension for regular expression support • Thanks Dylan Byrne for all your valued contributions to CPS and good luck with your future opportunities, maybe you wil find out way back to Open Source again 🙂
05 Aug 2022	Dylan Byrne Priyank Maheshwarirajesh kumar Arne Chrestin Tony Finnerty Andras Zoltan Kiss Joseph Keenan Lee Anjella Macabuhay Ahila P Aditya Puthuparambil Luke Gleeson Sourabh Sourabh Arpit Singh Rajesh kumar	• SoftwareStatus • Ahila P has raised two new bugs **CPS-1179** - Getting issue details... STATUS and **CPS-1180** - Getting issue details... STATUS • We will organise a meeting for Monday to discuss the following story raised by Rajesh kumar , **CPS-1128** - Getting issue details... STATUS in more detail
29 Jul 2022	Dylan Byrne Joseph Keenan Priyank Maheshwari Sourabh Sourabh Lee Anjella Macabuhay Luke Gleeson Lathishbabu Ganesan Arne Chrestin Arpit Singh Rajesh kumar	• SoftwareStatus ◦ Demo by Dylan Byrne re. **CPS-1133** - Getting issue details... STATUS ▪ Enable/Disable Data Sync for Cm Handle • Arpit Singh & rajesh kumar Discussed their findings in regard to **CPS-1128** - Getting issue details... STATUS , and gave a list of API's which can possibly be created and updated, along with new error codes that can implemented for certain error scenarios. They will share their documentation with us.

22 Jul 2022	Dylan Byrne Priyank Maheshwari Sourabh Sourabh Luke Gleeson Lee Anjella Macabuhay Aditya Puthuparambil Tony Finnerty Arpit Singh Rajesh kumar Arne Chrestin Ahila P	• SoftwareStatus ◦ Luke Gleeson no updates from liquibase from last week. ◦ Dylan Byrne investigation on a bug CPS-1150 - Getting issue details... STATUS related to ODL having transitive dependency of guava which has some vulnerabilities. Tony Finnerty suggested we should also check what version SDNC uses in order to select the correct version and still be compatible. • **Questions came up during the meeting**. ◦ Rajesh kumar pointed about the response format of few of the endpoints to be in text format as opposed to json. He will reach out with consolidated details. Also there is a user story in backlog on the same lines CPS-1128 - Getting issue details... STATUS . Team to look into it. ◦ Ahila P pointed out that the list-node API in CPS-Core on retrieval of nodes is slower and she will come back with the sample data for the team to analyze further. ◦ Arpit Singh wanted to confirm on resolution about a bug raised in Istanbul release related to schema-set. (we were able to fetch the details of the deleted schema-set) which is fixed in Jakarta.
15 Jul 2022	Toine Siebelink Lee Anjella Macabuhay aditya puthuparambil Tony Finnerty Priyank Maheshwari Andras Zoltan Kiss Dylan Byrne Luke Gleeson Rudrangi Anupriya Arpit Singh Rajesh kumar	• SoftwareStatus ◦ Toine Siebelink will update CPS-1150 - Getting issue details... STATUS to include suggestion for using latest version of ODL YangTools and check for direct dependency of Guava (in NCMP test stubs?) ◦ Aditya Puthuparambil suggested to create Jira for KT on Kubernetes deployment of ONAP /CPS CPS-1151 - Getting issue details... STATUS : • Kohn Milestone Status M2 ◦ CPS read ie. tasks closed but TSC forum decided to postpone decision by 1 week. • Demo by Dylan Byrne re. CPS-1119 - Getting issue details... STATUS ◦ *dataSyncEnabled* missing from output, will be addressed in current user story • Demo by Luke Gleeson re. CPS-977 - Getting issue details... STATUS ◦ Error handling for cspPath needs to be improved. return 4xx when invalid (conform cps-core). Handle(validate) blank string separately ◦ Inconsistencies between kebab-case for yaml modelled data and camelCase json modelled data need to be addressed. New spike CPS-1152 - Getting issue details... STATUS created for that ◦ Current dmi-registry model needs to be published with note on fact that additional-properties cannot be used. Created a user story to split between public and private models: CPS-1153 - Getting issue details... STATUS
08 Jul 2022	Toine Siebelink Lee Anjella Macabuhay Priyank Maheshwari Dylan Byrne Joseph Keenan Tony Finnerty Andras Zoltan Kiss Luke Gleeson Aditya Puthuparambil Lathishbabu Ganesan Ahila P	• SoftwareStatus ◦ Dylan Byrne needs some help with CPS-1119 - Getting issue details... STATUS both Luke Gleeson and Aditya Puthuparambil can provide this • Agree with team potential endpoints for new API in CPS-1133 - Getting issue details... STATUS ◦ Context: this endpoint will be an 'override' for a future more granular cache config which itself might enable dataSync (flag). The cache config will be developed using a new specialized interface ◦ Agreed endpoint: `/v1/ch/{cm-handle}/data-sync?enabled=true/false` PUT/POST - No Body ◦ if CacheEnabled is set to false after being synchronized: remove data and set datastore sync state to NONE-REQUESTED ◦ if CacheEnabled is set to false during being synchronization: check flag AFTER sync is completed, remove data and set datastore sync state if needed ◦ Need to enhance query capabilities, possibly model driven! CPS-1138 - Getting issue details... STATUS ◦ Need to add 'forwarding functionality' CPS-1139 - Getting issue details... STATUS

01 Jul 2022	Toine Siebelink Dylan Byrne Luke Gleeson Lee Anjella Macabuhay Sourabh Sourabh Aditya Puthuparambil Andras Zoltan Kiss Priyank Maheshwari	• SoftwareStatus
		• Discuss open questions around **CPS-1119** - Getting issue details... STATUS
		  ◦ Was discussed earlier in the day wasn't discussed as part of this meeting
		• Demo by Dylan Byrne re. **CPS-1076** - Getting issue details... STATUS
		  ◦ Separate Commit will be pushed to add logging for the total number of minutes until the retry mechanism is expected to run again.
		• Demo by Luke Gleeson pending merge re. **CPS-1045** - Getting issue details... STATUS
		• Demo by Lee Anjella Macabuhay re. **CPS-1064** - Getting issue details... STATUS

24 Jun 2022	Arne Chrestin Dylan Byrne Andras Zoltan Kiss Tony Finnerty Lee Anjella Macabuhay Sourabh Sourabh Priyank Maheshwari Luke Gleeson Joseph Keenan	• SoftwareStatus • Discussion around bug https://jira.onap.org/browse/CPS-1097 and potential solutions, along with handover to Aditya Puthuparambil as Dylan Byrne would not be in Monday, and this bug was blocking other user stories.
17 Jun 2022	Lathishbabu Ganesan Andras Zoltan Kiss Lee Anjella Macabuhay aditya puthuparambil Sourabh Sourabh Tony Finnerty Priyank Maheshwari Dylan Byrne Bruno Sakoto	• SoftwareStatus

10 Jun 2022	Toine Siebelink Priyank Maheshwari Aditya Puthuparambil Lee Anjella Macabuhay Andras Zoltan Kiss Lathishbabu Ganesan Bruno Sakoto Joseph Keenan	• SoftwareStatus
		• Demo by Lathishbabu Ganesan re. Data Sync **CPS-1000** - Getting issue details... STATUS
		  ◦ Data Sync worked as expected (with workaround to get bookstore-data instead of *first* data-tree) 😃
		  ◦ Instance contention, retry and override (update) are out of scope and will be handled in future user stories

03 Jun 2022	Bruno Sakoto Toine Siebelink Priyank Maheshwari Aditya Puthuparambil Lee Anjella Macabuhay Andras Zoltan Kiss Sourabh Sourabh Dylan Byrne Lukasz Rajewski Arne Chrestin Tony Finnerty	• SoftwareStatus • Demo by Sourabh Sourabh re. async request handling • Demo by Dylan Byrne re. WatchDog process (asnc) for Module Sync • Demo by Lee Anjella Macabuhay re. Module-name prefix in CPS-Core output
27 May 2022	Toine Siebelink Joseph Keenan Priyank Maheshwari Aditya Puthuparambil Lee Anjella Macabuhay Andras Zoltan Kiss Sourabh Sourabh Bruno Sakoto Renu Kumari Dylan Byrne	• SoftwareStatus • aditya puthuparambil raised questions about reporting Data-Sync state for **CPS-1036** - Getting issue details... STATUS • ◦ Agreed that is outside the scope of current user story. Event schema can be update later depending on what stakeholder requirements are for this. Priyank Maheshwari will record open issue on this and contact stakeholders ◦ Renu Kumari also question use of cm-handle-id as the value for event correlation id. Team agreed to propose a separate cm-handle-id field and use correlation if (in future) when need but not for cm-handle-id. Priyank Maheshwari will record open issue on this and contact stakeholders
20 May 2022	Toine Siebelink Priyank Maheshwari Aditya Puthuparambil Lee Anjella Macabuhay Andras Zoltan Kiss Luke Gleeson Tony Finnerty Sourabh Sourabh Bruno Sakoto	• SoftwareStatus • Jakarta Final Release Tasks: 3 issues • Kohn M1 Tasks : 3 issues Toine Siebelink to check with Byung about need for architectural review

13 May 2022	Toine Siebelink Joseph Keenan Priyank Maheshwari Aditya Puthuparambil Lee Anjella Macabuhay Andras Zoltan Kiss Luke Gleeson Tony Finnerty Sourabh Sourabh Bruno Sakoto Renu Kumari	• SoftwareStatus
		  ◦ Sourabh Sourabh wil create a bug related to OOM depency issue for logging
		  ◦ Discussed Async Response wrapping. The statuscode and message in the Async response event are as intended: the original code and message from the underlying component. And NOT a HTTP code inline with the synchronous response which is generated by NCMP
		• Kohn Milestone Status NEW 😃
		• CPS R11 Release Planning
		  ◦ Priyank Maheshwari will add Jira(s) to handle Notification Publication for Work Item #1

06 May 2022	Toine Siebelink aditya puthuparambil Joseph Keenan Priyank Maheshwari Dylan Byrne Luke Gleeson Lathishbabu Ganesan Sourabh Sourabh Lee Anjella Macabuhay Bruno Sakoto Ahila P	• SoftwareStatus ◦ CPS-1020 - Getting issue details... STATUS stil being investigated by ERicsson Internal team. No action yet required form CPS Team ◦ CPS-986 - Getting issue details... STATUS some confusion about logback.xml filename still used in OOM and possible duplication. Bruno Sakoto wil work with Sourabh Sourabh to resolve this. Some additional info from Priyank Maheshwari : When a file in the classpath has one of the following names, Spring Boot will automatically load it over the default configuration: logback-spring.xml logback.xml logback-spring.groovy logback.groovy Spring recommends using the -spring variant over the plain ones whenever possible, as described here. https://www.baeldung.com/spring-boot-logging • Ahila P looked for some clarification re the integration of RAN Simulator (Honeycomb). This wil connect using SDN-C(R). SO teh full stack vor writing using Passthrough Datastore is TBDMT CPS-NCMP DMI-Plugin SDN-C(R) Ran Simulator • Toine Siebelink and Ahila also discussed the possible removal of old preloaded data. This wil be handled by a new Jira: CPS-1021 - Getting issue details... STATUS • Priyank Maheshwari presented CPS-1017 Explore and Compare various caches and team agreed to proceed with option #2 'Embedded Distributed' which Priyank wil now execute a PoC for
29 Apr 2022	Toine Siebelink	• SoftwareStatus ◦ Dylan Byrne CPS-877 - Getting issue details... STATUS ▪ Cannot be merged (yet) but should be pushed to Onap Gerrit for review ▪ Dylan Byrne has created CPS-1010 - Getting issue details... STATUS to check lock reason for passthrough. Consider internal state or new enum for reason to allow passthrough access when 'Lock' for data-sync etc. ▪ Toine will check Strimzi related commit status with Fiachra Corcoran • RC Milestone Status ◦ RC postpone to 12 May 2022 CPS only depns on Integration)(team) related task, tracked by CPS-990 - Getting issue details... STATUS • Luke Gleeson discussed CPS-438 Make DB Schema Updates & Data Population More Robust for Kubernetes Environments ◦ Luke Gleeson will check timing when DB setup from scratch in CPS-1013 - Getting issue details... STATUS ◦ Consider once off data-setup in future or other improvements in CPS-1012 - Getting issue details... STATUS ◦ Solution #3, K8s is preferred by team. Is outside CPS scope i.e. in OOM or external helm charts. Document solution for now only. This does depend on new K8s release 1.20 or higher. ONAP already planned 1.21.7 for Jakarta see Database, Java, Python, Docker, Kubernetes, and Image Versions. Task/story to update OOM with startup probe once ONAP k8s has been upgraded: CPS-1011 - Getting issue details... STATUS

22 Apr 2022	Toine Siebelink Joseph Keenan Priyank Maheshwari Sourabh Sourabh Dylan Byrne Luke Gleeson Aditya Puthuparambil Ahila P Tony Finnerty Rafael Rocha (Ericsson) Bruno Sakoto Renu Kumari	• Discuss with Ahila P the feasibility of supporting these items: 1. PATCH method support for list-nodes in CPS-Core API *Ahila P wil proceed CPS Team with exact patch request* *CPS Team will examine possible solution but solution will be limited subset off usual Path-functionality just enough to support use-case required* 2. Support for CPS-E-05 interface which requires Cache to be enabled *In progress see Work Item #4 on CPS R11 Release Planning* *Cache (datastore ncmp-operational) is read-only* *Cache update are planned as further work items in R11* *Writing to 'cache' is not planned for R11* 3. Ran-network Configuration update using NCMP *This is already supported using ncm-passtrough-operational. CPS Team will organise a demo mid next week to show passthrough read and write scenarios, see* ***CPS-1004** - Getting issue details... STATUS* 4. Add CPS-TBDMT under CPS umbrella *CPS Team is stil just 'hosting' CPS-TBDMT. Although it is a valuable addition to CPS it hasn't got the priority and are team is not resourced enough to take it further.* • A.O.B. ◦ Some good news *Reached 1000th Jira in CPS! Great work for small team!* ◦ Some bad news *Renu Kumari wil be leaving Bell Canada. CPS Team wishes her well and thanks Renu for all her valuable contributions to CPS. Renu hopes to keep contributing in a private capacity but of course cannot dedicate as much time.* • SoftwareStatus (time permitting) Stil intermittent build issue affect throughput for team. Aditya Puthuparambil has raised LNF IT Ticket: https://jira.linuxfoundation.org/plugins/servlet/theme/portal/2/IT-23933
15 Apr 2022	N/A	No meeting, bank holiday in Canada and Ireland
08 Apr 2022	Toine Siebelink Lee Anjella Macabuhay Dylan Byrne aditya puthuparambil Sourabh Sourabh Lathishbabu Ganesan Luke Gleeson Joseph Keenan Bruno Sakoto Priyank Maheshwari Niranjana Y Ahila P Tony Finnerty Bruno Sakoto Arpit Singh	• SoftwareStatus ◦ **CPS-829** - Getting issue details... STATUS required change from SpringFox to SpringDoc library because of know issue ◦ **CPS-979** - Getting issue details... STATUS Sourabh Sourabh will present decision on WEbClient proposal to team once finalized ◦ **CPS-961** - Getting issue details... STATUS Agreed to replace IllegalStateException with custom (CpsParser) exception for consistency and future flexibility ◦ **CPS-898** - Getting issue details... STATUS Lee Anjella Macabuhay will investigate separate handling of InteruptedException and 'isolation level' as suggested by Bruno Sakoto • Joseph Keenan confirmed as comitter by TSC 😃 • Demo by Renu Kumari of **CPS-896** - Getting issue details... STATUS Good demo, all worked as expected, Renu just needs to update documentation before closing this user story
