

Policy R1 Amsterdam Independent Versioning And Release Process Plan

Independent Versioning and Release Process

Consumed API from other projects

Project	API Dependency	Notes
Portal	1.1.0	When portal team releases we will upgrade.
Dmaap	Linking directly to github Open Source version from R0	Unable to upgrade to re-packaged client libraries in ONAP due to time considerations via blocker B24
AAI	v11	No direct link to any libraries
APP-C		No direct link to any libraries
SO		No direct link to any libraries
VFC	No direct link to any libraries	

Published API - These projects use the policy libraries to build their code

Project	API	Notes
CLAMP	1.1.2	
DCAE	n/a	Implemented own python API

Update to the next SNAPSHOT version:

Repo	Notes	Example Commit(s)
policy/common	all pom.xml's version.properties	https://gerrit.onap.org/r/#/c/28107/
policy/drools-applications	all pom.xml's version.properties	https://gerrit.onap.org/r/#/c/28109/
policy/drools-pdp	all pom.xml's version.properties	https://gerrit.onap.org/r/#/c/28111/
policy/engine	all pom.xml's version.properties BRMSGateway/config.properties BRMSGateway/dependency.json BRMSGateway/src/main/java/org/onap/policy/brmsInterface/BRMSPush.java BRMSGateway/src/test/resources/config.properties	https://gerrit.onap.org/r/#/c/28113/
policy/docker	all pom.xml's version.properties config/pe/brmsgw.conf	https://gerrit.onap.org/r/#/c/28185/

When branching, its easiest to update the .gitreview file ON the new branch in order to ensure that new gerritt submissions are tracked on that branch.

If this is not done, then one should specify the branch when submitting the git review. 'git review amsterdam'

```
[gerrit]  
host=gerrit.onap.org  
port=29418  
project=policy/engine.git  
defaultbranch=amsterdam
```
