## Meeting Attendees

Brian Hedstrom (me)

Chris Donley (Host)

Gokul Singaraju

jscali

Lianhao Lu

Tina Tsou

Vijay VK (AT&T)

## Meeting Agenda & Minutes

Agenda Items	Notes
Logistics	<ul style="list-style-type: none"><li>Integration team needs support (Murali)</li><li>Goal: All VNFs used in each R1 Use Case to be validated by VNF SDK<ul style="list-style-type: none"><li>Both open source (from Intel) and commercial VNFs (used in VoLTE)</li></ul></li></ul>
Action items from last week	<p><a href="#">See last week's meeting notes.</a></p> <p>No good way to incorporate PPT files into documentation, only by image of each slide. Word documents will be easier to work with.</p>
Licensing	<p>For Marketplace</p> <p>Chris showed the Spreadsheet which highlights the issues. We have a JIRA issue in our current Sprint addressing this item. Need to get the license info or find an alternative package with better licensing terms.</p>

Sprint 6 Progress (closes today)	<ul style="list-style-type: none"> <li>Modeling subteam (<a href="#">Andy Mayer</a>) <ul style="list-style-type: none"> <li><a href="#">Not present</a></li> </ul> </li> <li>Marketplace subteam (<a href="#">Weitao Gao</a>) <ul style="list-style-type: none"> <li><a href="#">Not present</a></li> </ul> </li> <li>Validation Tools subteam (<a href="#">Murali Mohan Murthy Potham</a>) <ul style="list-style-type: none"> <li><a href="#">Not present</a></li> </ul> </li> <li>Package Tools subteam (<a href="#">Lianhao Lu</a>) <ul style="list-style-type: none"> <li><a href="#">No issues at this time.</a></li> </ul> </li> <li>Compliance (<a href="#">Alok Gupta</a>) <ul style="list-style-type: none"> <li><a href="#">Checking code in, no issues</a></li> </ul> </li> <li>Documentation (<a href="#">Chris Donley</a>) <ul style="list-style-type: none"> <li><a href="#">On target, moving along and no issues.</a></li> <li><a href="#">Gokul will send Chris documentation</a></li> </ul> </li> </ul>
Review RC1 Checklist	<p><a href="#">Chris has not filled this in yet. It's essentially the same as the RC0 checklist. We have one High Priority defect being worked (licensing issue).</a></p> <p><a href="#">Team is in good shape for RC1.</a></p>
Define Sprint 7	<a href="#">Chris will open Sprint 7 today for bug fixes and close Sprint 6 Monday.</a>
Any blockers or open issues that need to be addressed?	<a href="#">None reported</a>
R2 planning (defer to after RC1)	<p><a href="#">After next week we'll start these discussions. Would like to iron this out by the end of Nov.</a></p> <p><a href="#">VNF SDK will likely have security requirements as part of the Carrier Grade ONAP requirements.</a></p>
