

SDC 6/11/2017 weekly meeting report

Agenda:

The agenda will be:

- a. General discussion on SDC open issues.
- b. general Q&A
- c. presentation regarding a solution for image management.

discussion points:

1. general discussion regarding open items concerning SDC and the hosted projects.
2. status update regarding the progress of integration testing and the requirements for RC2.
3. vnf sdk suggested that image management will be handled by them, SDC explained that the image validation can be done on this phase but the image management should be done in a runtime component.
4. Zhao Hubing presented his proposal for image management, recording and slide are located below.
5. it was recommended that the image management proposal should be presented to the TSC arch committee for discussion on where this should be placed.

Action items:

- ☐ [HuabingZhao](#) Will present his proposal to the ARCH sub committee for discussion.
