

Michael O'Brien PTL vote notes

These notes are in support of committer voting on moving [Michael O'Brien](#) to PTL of the Logging-Analytics project

Presented to TSC on [TSC 2017-11-30](#)

20180122 Committer vote results - to be presented to the TSC on the 25th in prep of the PTL change

[Michael O'Brien - Committer Promotion Request for \[Logging-Analytics\]](#)

ONAP experience

Since May 2017 in version 1.0.

Work running/documenting/integrating vFW use case in various environments in ONAP previously in HEAT, currently in OOM

Worked with TSC on behalf of Logging and OOM and assisted with PTL role in Logging since Sept 12 2017

Active committer(contributor status) on OOM and Logging-analytics projects

Work with external VMWare VIO OPNFV, CNCF, and ONAP Integration groups - specifically representing OOM and Logging.

Previous open source experience

Neo4j – NoSQL Graph Database (6 months) – Nokia 2016-2017

Contributed code/method to run the graph database in JVM embedded mode (for Directed graph traversal speed) instead of external REST endpoint container in 3.0 release for Jan 2017.

Example on <https://github.com/obrienlabs/nbi-neo4j-embedded-aws-war> for <https://github.com/neo4j/neo4j-browser/issues/342> and <https://github.com/neo4j/neo4j/issues/8548>

EclipseLink ORM - JSR-317 (4 years) – Oracle 2007-2011_Companies: Oracle, SUN, SAP

Paid corporate committer (100% full time) from 2007-2014 under Michael.obrien@oracle.com later Michael.f.obrien@eclipselink.org

<http://www.eclipse.org/eclipselink/#jpa>

Tech Reviewer for JPA 2.0 book

<https://books.google.ca/books?id=UHobxmgB714C&pg=PR23&dq=jpa+2.0+book+acknowledgments&hl=en&sa=X&ved=0ahUKEwjMpOD1kfXTAhWmqFQKHR5UAYwQ6AEIJzAA#v=onepage&q=jpa%202.0%20book%20acknowledgments&f=false>

Spec <https://jcp.org/en/jsr/detail?id=317>

Largest work was the Metamodel port of the Criteria API under <http://bugs.eclipse.org/266912>

Service Data Objects JSR-235 (1 year) – Oracle 2006_Paid corporate committer (100% full time) 2006-2007

spec <https://www.jcp.org/ja/jsr/detail?id=235>

Largest work was on the ChangeSummary

Subject: TSC Agenda Item: Michael O'Brien for Logging-Analytics PTL

Gildas, Kenny,

Hi, could I add one item to the next TSC meeting.

We have finished voting on the following proposal: Moving Michael O'Brien to Logging-analytics PTL

This change was voted on by all 3 active committers of the project. I included the other 2 inactive committers on all correspondence up to this vote as well.

There are also about 14 contributors to the project that have been on the last 2 meetings we have at 11EDT every Tuesday where this item was on the agenda.

<https://wiki.onap.org/display/DW/Resources+and+Repositories#ResourcesandRepositories-LoggingEnhancements>

Thank you for your work on this and thank you to the project committers and contributors.

/michael

Subject: ONAP Proposal: Vote on Michael O'Brien for PTL of Logging-Analytics project

Team,

Hi, We have a proposal PTL vote for all the committers on the logging project at ONAP.

We discussed this on the last public logging-analytics meeting the proposal on myself for the PTL role in this project.

There would be minimal changes to the project, I would formally take over the JIRA-board, coordination, TSC meetings, branch/release work from Luke to free him up for even more architectural and design work – although we continue as before with a flexible open environment.

The process as I understand it is for all the committers to vote on this by putting a +1 or -1, we then pass this vote to the TSC.

We can discuss this again on this Tue's logging meeting tomorrow as well.

Proposal: Vote for Michael O'Brien for TSC of Logging-Analytics project

Additional details are in the wiki below
