Discussion items

Time	Item	Who	Notes
	🔖 **AAI-494** - Improve API Swagger Documentation `CLOSED`	[James Forsyth](#)	Status on RST generation. We did a merge with the RST file Pavel produced but its size seemed to exhaust the resources of the readthedocs CPU/memory quotas for building the HTML page. Raised issue with [Rich Bennett](#) from the docs team and was going to work the issues with [Pavel Paroulek](#). Do we want to use a single RST file or should we split into smaller RST files? During generation of the yaml, we could possible change the output - need to consult with [William LaMont](#) or Richard Epp from ATT who know the process of how that yaml is created.
	MSB Integration Status	[HuabingZhao](#)	The MSB AAF auth plugin Two-way SSL at MSB API Gateway Any problems in the integration 🔖 **AAI-671** - Replace HAPROXY with MSB `CLOSED` Might need a plugin in MSB to achieve stickiness of requests
	Cassandra Clustering	[Pavel Paroulek](#) [Venkata Harish Kajur](#)	We have a 3 node replicated cluster configured with local storage; need to discuss if this will be adequate to the purpose of Beijing integration testing. 🔖 **AAI-539** - Set up Cassandra docker images in 3 node cluster `CLOSED` ☑ **OOM-591** - AAI needs persistent volumes configured, need help with OS in lab `CLOSED` [Michael O'Brien](#) from OOM team will assist w/ OOM-591
	CII Badging	[James Forsyth](#) [Arul Nambi](#)	We have two CII Badging submissions currently active on [CII Best Practice Badge Program](#): 1) [AAI](#) and 2) [Sparky-fe](#) [Zi Li](#) Need to submit for ESR (sub-projects submit separately)
	Infrastructure	[James Forsyth](#)	New repos built; do we need anything else?

	Image Manager	James Forsyth	Image Manager is a proposed sub-project to AAI for Beijing. Likely transitioning to the MultiVIM project, meeting after our AAI weekly call today to reach an agreement.

Action items

- ☑ James Forsyth will start the discussion about IM for Beijing to close on the TSC conditional approval of AAI's M1 - Meeting 1/26 immediately following the AAI weekly call to discuss it
- ☑ James Forsyth and Pavel Paroulek will work on getting the RST file produced by Pavel's script into the readthedocs for Beijing - then add stories for next steps as appropriate
- ☐ Zi Li or other ESR rep will to start the CII Badging process for ESR https://bestpractices.coreinfrastructure.org/
- ☑ James Forsyth will start an email thread about RST split and yaml generation for readthedocs
- ☑ James Forsyth will set up a session with AAF to try authentication
- ☐
