# OOF 2018-03-19 Meeting Notes

## Date

09 Feb 2018

## Agenda:

- [ ] Fossology testing - Ikram, Shankar to follow up with Gildas.
- [ ] Functional testing
    - [ ] CSIT Health Check - Ikram to provide
- [ ] Min-guarantee - HPA discussions
    - [ ] Min guarantee - approach similar to HPA; can leverage same policy/constraint models.
    - [ ] Alex: Suggest moving this to R2.1/R3, and ensure this is aligned with VNFD min/max; Ramki: suggest targeting R2.1, talk to PTLs of AAI, SDC, Modeling subcommittee, reach out to Alex.
- [ ] Feature development
    - [ ] OSDF enhancement to support HPA/vCPE policies - Ankit: Probably needs more work under the hood, verify policy models, update policy adapters, conflation of policies into homing template generation (WIP)
    - [ ] OSDF to return flavor_map as a part of the placement recommendation from HAS
    - [ ] HAS enhancement to support HPA/vCPE requirements
    - [ ] HAS enhancement to support MultiCloud capacity_check
- [ ] Integration with OOM
    - [ ] Dockerization
        - [x] HAS - update from Ikram: Completed
        - [ ] OSDF
    - [ ] Creating Helm charts: Work towards getting to 80-90% done this week, simple testing.
    - [ ] MSB
    - [ ] Set up meeting after functional testing meeting tomorrow/Wed.
