

OOM Meeting Notes - 2018-02-14

Agenda

- <https://zoom.us/j/118908904> 1000 EST (GMT-5)
- Mike Elliott will present configuration changes in progress
- review 3 drafts from Mike on direction of helm chart work - looking for feedback from operators
- <https://gerrit.onap.org/r/#/q/status:open+oom>
 - All committers/contributors please review the work below
 - <https://gerrit.onap.org/r/31513>
 - <https://gerrit.onap.org/r/31509>
 - <https://gerrit.onap.org/r/31507>
- AAI team will present on Openstack PV for cassandra cluster breaking DNS during scale out
 - <https://lists.onap.org/pipermail/onap-discuss/2018-February/008108.html>
 - Pavel Paroulek will present his issue during 30 min of the meeting
 - We have met 3 times over the past 2 weeks and decided to bring the PV issue into the OOM meeting to get the opinion of DNS and PV experts and the team that worked on the SDNC poc.
 -  **OOM-591** - AAI needs persistent volumes configured, need help with OS in lab CLOSED
 -  **AAI-539** - Set up Cassandra docker images in 3 node cluster CLOSED
- Go over JIRA board <https://jira.onap.org/secure/RapidBoard.jspa?rapidView=41&selectedIssue=OOM-257>
- Go over M2 Functionality Freeze milestone [OOM Beijing - M2 Deliverables for Functionality Freeze Milestone Checklist](#)
- Roger: License header on each file - see example on
- reviews older than 36 hours - need to close.

Notes

- Notes <https://jira.onap.org/browse/OOM-508>
- Shay? use case for native DCAE via K8S extensions -
-  **OOM-508** - Add support to DCAE GEN2 CLOSED
- <https://kubernetes.io/docs/concepts/service-catalog>
- <https://kubernetes.io/docs/concepts/api-extension/apiserver-aggregation>
- Backlog of merges (please add more than Alexis to the reviewers list)
- (include following in Beijing scope) - [Beijing Scope](#) (Tosca specifically)
- <https://gerrit.onap.org/r/#/c/27751/>
- <https://gerrit.onap.org/r/#/c/28455/>
- <https://gerrit.onap.org/r/#/c/31721/>
- Atul? sync on vFW for
-  **SO-352** - SO failed to create VNF - with error message: Internal Error Occurred in CreateVnfInfra QueryCatalogDB Process CLOSED
- Nicolas: Policy issue OOM-667 - revisit
- JIRA for resource limits and resource requirements should be defined - find JIRA (min/max)
- define conditions: cluster of small vms -
- Mandeep: in parent chart put a check on helm, kubernetes(server/client), docker version - perhaps in config pod - need a machine runnable (non-interactive mode) skip option for advanced users (check versions by default)
- Promod: aaf question  **OOM-324** - AAF Service Container logging error CLOSED ok for failing container for now - being addressed
- Discussion on db/log config files moving out of container - link to discussion on this
- Borislav: POC onap on 1 namespace - large commit unavoidable - draft review later this week.
- Running DCAE in amsterdam question from Priyanka - see <https://lists.onap.org/pipermail/onap-discuss/2018-February/008059.html>
