CCSDK: Beijing: Security/Vulnerability Threat Template

This template is intended to be used to document the outcome of the impact analysis related to the known vulnerability reported by Nexus-IQ (CLM tab in Jenkins). Nexus-IQ can identify the known vulnerabilities contained in the components use by onap components.

Report in the template below only the vulnerabilities that Nexus-IQ is reporting as "Critical" (Level 7 to 10).

This table will be presented to the TSC at Code Freeze milestone (M4).

It is recommended to **first update to the latest version** of the third party components available. In case the latest third party components still reports some vulnerabilities, you must provide an impact analysis as illustrated in the example below.

In the case where you have nested third party components (a third party component embedding another third party component) and there is **NO CVE** number for the upstream third party component (meaning the third party component you are embedding), it is recommended to open a vulnerability issue on the upstream third party component.

Usage

Please make a Copy of this template into your project wiki space. Be sure to make a Copy (not a Move) by using the ... on the top right corner of this page

Within the M4 checklist create a link toward your copy of this template

Once this template has been copied into your project wiki space, you can delete this "Tip" section as well as the "Sample of CLM Report" screenshot. This screenshot is just an example.

The following table is addressing 2 different scenarios:

- Confirmation of a vulnerability including an action. Note: in all cases that remain, vulnerability identified is contained within OpenDaylight
 distribution media and thus fix must come from OpenDaylight project.
- False Positive

The information related to Repository, Group, Artifact, Version and Problem Code are extracted from the CLM report (see the below screenshot)

Repository	Group	Impact Analysis	Action
ccsdk-sli- adaptors, ccsdk- distribution	com.fasterxml. jackson.core	Risk is minimal, since this code is used to parse response from A&AI only. Must use version of library distributed with OpenDaylight to avoid version conflicts.	Update must come from OpenDaylight project
ccsdk-sli- adaptors, ccsdk- distribution	com.fasterxml. jackson.core	Risk is minimal, since this code is used to parse response from A&AI only Must use version of library distributed with OpenDaylight to avoid version conflicts.	Update must come from OpenDaylight project
ccsdk-sli- adaptors, ccsdk-sli-core ccsdk-sli- northbound, ccsdk-sli- plugins, ccsdk- distribution	ch.qos.logback	False positive - Does not apply to our usage. Vulnerability refers to classes used when appending to remote logs (RemoteStreamAppenderClient, SocketNode), which does not apply to our case.	Not applicable
ccsdk-sli- adaptors, ccsdk- distribution	org.apache. httpcomponents	Risk is minimal, since this code is used in internal ONAP interface with A&AI. Must use version of library distributed with OpenDaylight to avoid version conflicts.	Update must come from OpenDaylight project
ccsdk- distribution	org.ops4j.pax.tipi	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	org.ops4j.pax.tipi	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	org.ops4j.pax.tipi	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	org.ops4j.pax.tipi	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project

ccsdk- distribution	org.ops4j.pax.tipi	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	org.ops4j.pax.tipi	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	org.ops4j.pax.tipi	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	commons- collections	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	commons- fileupload	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	commons- fileupload	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	net.sf.ehcache	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	net.sf.ehcache	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	com.fasterxml. jackson. dataformat	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	angular	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	uglify-js	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	uglify-js	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	org.apache. myfaces.core	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project n
ccsdk- distribution	org.codehaus. jackson	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	org.apache. karaf. webconsole	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	org.apache. karaf. webconsole	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	shell-quote	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	org.hibernate	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	qs	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	org.ops4.pax. web	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	org.ops4.pax. web	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	org.ops4.pax. web	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	tough-cookie	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	org.eclipse.jetty	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	org.eclipse.jetty	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	commons- beanutils	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	hawk	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	hawk	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	org.eclipse.jetty.	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project

ccsdk-	org.apache.	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from
distribution	karaf.jaas		OpenDaylight project
ccsdk-	org.jboss.	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from
distribution	narayana.osgi		OpenDaylight project
ccsdk- distribution	io.netty	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
ccsdk- distribution	org.jboss.netty	Library not used by CCSDK code directly, but is contained in OpenDaylight Nitrogen distribution	Update must come from OpenDaylight project
