

# OOM Meeting Notes - 2018-05-02

## Notes

- JIRA board - <https://jira.onap.org/secure/RapidBoard.jspa?rapidView=41&view=detail&selectedIssue=OOM-934>
- RC1 tomorrow
  - Healthchecks - around 34 max of 42 - uui, nbi in progress
  - portal work allowing integration progress - [Brian Freeman](#) doing dcae testing
- Bug list - 1033 is being fixed by Borislav
- Helm issue  **OOM-779** - OOM APPC ODL (MDSAL) persistent storage CLOSED - fixing appc - need to goto helm 2.8 - update wiki and
- RTD - see  **LOG-369** - HELM 2.8.2 upgrade to allow for Helm upgrades - hold until pod upgrade tested CLOSED
- nexus3 slowdown - narrowing to JVM heap - see restart mail <https://lists.onap.org/pipermail/onap-tsc/2018-May/004706.html> - building proxy nexus3 to test
- Documentation - in progress
- Q: [Dominic Lunanuova](#) SSL certs - need list of services that require certs - Brian provided - verify
- Q: DMaaP: topic provisioning - in a chart can we call an API in another component - ie: bus controller exposes an API - for app get auth subs /publishers on topic
  - At deploy time - provision topic for use
  - can we do this in helm - add a job to the dep tree.- A) use SDC as an example templates/job.yaml
  - will provide a sample
  - Q: Patrick: 2.7.2 is current - from today on 2.8.2 for helm version - update wiki/
  - Update RTD for troubleshooting like we used to in the wiki
  - [http://onap.readthedocs.io/en/latest/submodules/oom.git/docs/oom\\_project\\_description.html#component-orchestration-overview](http://onap.readthedocs.io/en/latest/submodules/oom.git/docs/oom_project_description.html#component-orchestration-overview)
- fix diagram heirarchy
  - [http://onap.readthedocs.io/en/latest/submodules/oom.git/docs/oom\\_user\\_guide.html](http://onap.readthedocs.io/en/latest/submodules/oom.git/docs/oom_user_guide.html)
