Meeting notes 05/06/2018

Meeting notes:

- presentation From Amdocs about workflow enhancements for Casablanca and the move to BPMN.IO.
- presentation from Nokia about PNF support and the package structure.

Action items:

1. Benjamin Cheung provide examples for the artifact that should be in the package.
2. Michael Lando invite dcae-ds representative for the discussion about monitoring artifacts

Chat:

16:13:05   From Michela Bevilacqua (Ericsson) : @Benjamin: in this page there is a very old set of slide you proposed: https://wiki.onap.org/pages /viewpage.action?pageId=30900339

16:13:27   From Michela Bevilacqua (Ericsson) : can we discuss even offline about PNF deployment by wiki
16:13:30   From Michela Bevilacqua (Ericsson) : in this page ?
16:23:04   From Zu Qiang (Ericsson) : Are all the work flow slides uploaded in the wiki page?
16:23:49   From Benjamin Cheung : yes I will upload my slides to : https://wiki.onap.org/display/DW/Use+case+proposal%3A+5G-+RAN+deployment% 2C+Slicing%2C+SON
16:24:26   From Michela Bevilacqua (Ericsson) : can we take as wow the possibility to discuss offline in a SDC wiki page ?
16:55:48   From Rebecca Lantz (Ericsson) : does each vendor need to provide a microservice that uses the dictionary?
