FRANKFURT UPDATE for Configurations - AAF Agent

Topic: Demo of AAF-Hello, which demonstrates how to use the AAF Agent for Auto-configuration for Frankfurt.

- Note: AAF Version: 2.1.20
- Covers JDK 11 update
- Covers running YOUR container Non-root
- The video uses some short hand commands, which are setup as Bash Functions and Aliases for AAF. These are available on the following page as well.
