

Committer Removal Request for [AAF] Varun Gudisena

Contributor's Name: Varun Gudisena

Contributor's LFID: varun gudisena

PTL's thank you for his service:

While not required, I (Jonathan Gathman) want to state, as current PTL, that we appreciate Varun being a committer for AAF. The only reason for removal request, is that he has moved from working with ONAP to another team within his company, so it makes sense to not have the admin responsibility.

Thank you, Varun, for participating here.

Jonathan Gathman, PTL, 2018/19

Repositories the Committer should be removed from:

All "AAF" repositories, including aaf/authz, aaf/cadi, aaf/inno
