

Casablanca Policy Security/Vulnerability Report

This table represents the known exploitable and non-exploitable vulnerabilities in third party packages used in the project.

Repository	Group	Impact Analysis	Action
policy/drools-pdp	com.fasterxml.jackson.core	False Positive - we are not using the Jackson code in the manner that exposes the vulnerability. In addition, the code for this is disabled. https://gerrit.onap.org/r/gitweb?p=policy/drools-pdp.git;a=blob;f=policy-management/src/main/java/org/onap/policy/drools/protocol/coders/ProtocolCoderToolset.java;h=7ee8b08a3f42c30254afa1764905e267823d8d90;hb=refs/heads/master https://gerrit.onap.org/r/gitweb?p=policy/drools-pdp.git;a=blob;f=feature-pooling-dmaap/src/main/java/org/onap/policy/drools/pooling/Serializer.java;h=63aefb7a2c3ad63da25ab1de8341395188279645;hb=refs/heads/master	Request exception or false positive
policy/drools-applications	com.fasterxml.jackson.core	False Positive - flagged due to inclusion of policy/drools-pdp	Request exception or false positive
policy/engine	com.sword-group.bizdock.lib	Flagged due to inclusion of ONAP Portal SDK	
policy/engine	org.apache.tomcat	The declared and effective license are Apache 2.0, the CLM is incorrectly reporting a problem.	False Positive
policy/engine	com.fasterxml.jackson.core	False positive The code is not using jackson in the manner described in the vulnerability. There are too many lines to list here.	Request exception
policy/engine	org.springframework.work	Flagged due to inclusion of ONAP Portal SDK	Request exception
policy/engine	angular.js angular.min.js	Flagged due to inclusion of ONAP Portal SDK	Request exception
policy/engine	moment moment	Flagged due to inclusion of ONAP Portal SDK	Request exception
policy/engine	commons-beanutils	Flagged due to inclusion of ONAP Portal SDK	Request exception
