[portal-platform] 09-05-2018 portal weekly meeting

Agenda:

1. M3 Due 8/23/18 finalize :
    a. ~~Portal 343 Sireesh will check in today or tomorrow - done~~
    b. ~~Portal 314 is closed~~
    c. ~~Portal 275 check to see if postponed to Dublin - Lorraine check today - yes moved to Dublin~~
    d. ~~Portal- 288 code is done, documentation needs to be updated~~ and sdk-2.4.0 code to be tested - Sunder ??
    e. ~~Portal 362 Lorraine submitted, Sunder to merge - done~~
2. M4 pending items:
    a. Portal-247 Sonar scan Hari - notified to hold on to the sonar scan fixes - there are open commits - Sunder reviewed some - inprogress
    b. Portal-272 Sireesh will change status - adding more test cases: for Language, SDK, etc
    c. Portal-316 and Portal-314 turn on Raptor Reports on VM 11 menu for SDK - Leimeng,; menu in gerrit has to be activated if it passes - Sunder to deploy latest sdk in vm11 (update the docker version to staging) - inprogress
    d. Portal-386 - special character issue in login ID (make sure security concerns are addressed too) - Kishore
    e. Portal-366 - docker version update in right properties files - Saravanan (Sireesh to schedule a session at 2pm EST today)
    f. ~~Portal not accessible on Windriver SB07 deployment - Leimeng - done (it worked - could be windriver access limit issue)~~
    g. User logout session issue - create new JIRA - Leimeng
3. Code Coverage needs to be maintained at 50% or the current coverage better than 50%. (70% on Portal, on 64% SDK) - check offline
    a. SDK repo - Naveen is working on new SDK code coverage changes. New SDK commits made - Please add more reviewers - "Amrita Kundu" <amrkundu@in.ibm.com> is working part time on the code coverage.
    b. Prasad/Swapnali - not active on the code commits.
    c. Please use Epic - PORTAL-268 - for code coverage - PORTAL-273; for sonar issues - PORTAL-247; (focused on Portal repo).
4. Design for Angular update
    a. ~~Source code to be committed for Angular upgrade in a separate folder under SDK (waiting on fixing the build process which is taking long)~~ - gerrit review is done - waiting to merge.
        i. update the xml file - Saravanan.- still reviewing, pending
    b. Bump up the pom and docker versions to snapshots and deploy to T-Lab and Windriver (change in OOM as needed - related to Portal-366) - Saravanan/Sunder/Manoop.
    c. fonts and icons abstraction so that they can be switched with a flag configuration - Saravanan (decided to achieve this configuration during the build rather than at runtime)
    d. One screen implementation needs review with Sunder. - complete , will meet before checking the code
5. Lorraine to run grep scan for ecomp keyword - done - Review with Sunder/Manoop - will send them result in email - forward scan email to Hima and Lorraine
    a. Look for the vm host names in the files - to clean up - Lorraine already made commit for this changes - Hima can help if requires java file changes.
    b. ~~ECOMP to ONAP word changes in license text - done in Code Cloud - waiting to move to Gerrit - 08/01~~
    c. Need to review the MUSIC related classes to cleanup the ECOMP keywords - Hima looking into it. (changes are being committed in internal codecloud, soon will be pushed to gerrit).
    d. Hima working through changes - still working on it , Lorraine will help (SDK changes are half way done).
6. Moving the current CSIT tests to test-suites repo - ~~may need to create a new JIRA item to track~~ - Sireesh/Ritesh -

    > 🔖 **PORTAL-343** - Moving Portal CSIT tests to test-suites repo `CLOSED`

    a. ~~Submit the changes into test-suites and add reviewers - Brian Freeman and Gary Wu - ETA 08/13 - done~~
    b. ~~Reviews being done and Sireesh fixing the files. - done~~
    c. Once merged, please request Gary to trigger portal scripts from External labs OOM jenkins jobs - Sireesh. - working with Gary (create a JIRA item for Gary)
    d. Runs from local, needs to be tested in Jenkins
7. Sireesh/Ritesh to plan the test cases for the new features planned to Casablanca - Portal R3 Casablanca Functional Test Cases
    a. Regarding reporting feature - there is meeting scheduled for Friday. - meeting was held, some test cases are written
    b. Regarding language feature - following up with Tao Shen. - had a call, Tao sent document (5 APIs), GUI page needs updating Leimeng will sent email, another meeting Friday
8. Sireesh/Saravanan to followup with Sitharam for resources on AAF - CADI risk in Portal - Looking for response from Sitharam - meeting happened on 8/14
    a. ~~Two resources expected from ECOMP's team (Sireesha and Hima/Hema).~~
    b. Sitharaman Trichy Ramasubramanian to provide list of resources for this task.
    c. ~~Sunder Tattavarada and Manoop Talasila to prepare the plan and tasks for this feature and provide ETAs.~~
    d. Jonathan Gathman from AAF to provide support and guidance on all the AAF details. Had call with Jonathan, Sunder working on it, Saravanan - certificate work will be done after Sunder gives them info
    e. met with Jonathan 70% done;
    f. two steps 2.4 has rest implementation done; 2.5 will have CADI; email sent and partners.
    g. Jonathan having a few roadblocks, has to make some changes (no cookie based solution).
9. Logging standards analysis done by Lorraine - link to the expected changes for logging - ONAP Application Logging Specification v1.2 (Casablanca)
    a. Micheal O Brien reviewing the logging changes that can be done in portal/sdk - followup -

    > ⚡ **PORTAL-170** - Logging Improvement `CLOSED` .

    b. Review the current MDCs in the "**EPEELFLoggerAdvice.java**" class and others that might have.
    c. Lorraine will follow up with Michael tomorrow .
    d. Review needs to be done with Sunder, Shireesha. Kotta by Sep 1st week with Michael's changes.
    e. Some of the logging code is being refactored.

Attendees: and Hima

MT Manoop Talasila (me, participant ID:30)

f fmir

Hima

LS Leimeng Shi (ATT-Portal)

LA Lorraine A. Welch AT&T

R[Ritesh [Tech Mahindra]

SC Sireesh Chintamani

ST Sunder Tattavarada

SM Surajit Mitra

Release Discussion Items:

1. **Internationalization language support plan for Casablanca** - PORTAL-267 - (Tao Shen shentao@chinamobile.com)
   a. Tao is updating the API definition at appropriate documentation in wiki and rst files.
   b. Choose language/internal components
   c. ~~In discussion by larger community (Use Case UI Team), expecting implementation details (**Leimeng to followup**)~~
   d. ~~Leimeng has sent email to Tao Shen shentao@chinamobile.com on this topic and is waitng for his return email~~

   i.

   multi-language(20180618).pptx

2. **Testing**
   a. **CSIT test for new Casablanca features** - Sunder to schedule a session to go over the new features.
   b. Convert ECOMP selenium tests into CSIT ONAP Robot Framework tests - Sunder/Sireesh - Sunder to provide the ECOMP test scripts to Sireesh.
   c. *Enable JavaScript Unit tests.* (How will this impact the angular upgrade? Will these unit tests work as is even after upgrade?).
   d. Code Coverage needs to be maintained at 50% on both portal and portal/sdk repos without JS coverage.

3. *Reporting feature enhancement in portal/sdk* - ⚡ **PORTAL-312** - Reporting feature enhancement in portal/sdk `CLOSED` - Sundar R

4. Defect fixes (Hima looking into items)
