

2019-01-03 Doc Project Meeting

Attending

- [Rich Bennett](#)
- [Gergely Csatari](#)

Topics, Notes, Status and Follow-Up Tasks

Topics	Notes / Status / Follow-up
Improvements for Casablanca	Restructuring of Landing page changes have been merged to master. ✓ Seeking SMEs to review changes as they are proposed for more detailed technical content. A potential topic for discussion of face to face event or TSC meeting Sofia Wallin
os-api-ref directive	The os-api-ref directive https://github.com/openstack/os-api-ref maybe useful in ONAP API documentation. Example use in openstack can be viewed at https://fenix.readthedocs.io/en/latest/api-ref/v1/index.html (html) or https://github.com/openstack/fenix/blob/master/doc/source/api-ref/v1/maintenance.inc (source). ✓ Look for opportunities to use os-api-ref directive to improve existing or use with new ONAP API documentation. Rich Bennett Sofia Wallin ✓ If there are opportunities to use in ONAP, provide information on how to deliver and use the directive independent of Openstack Gergely Csatari
Using ONAP Logo color pallet in sphinx-rtd-theme	Pending pull request on a proposed approach https://github.com/rtfd/sphinx_rtd_theme/pull/703/files
Sequence Diagram Directive	Start of discussion on a sequence diagram directive that might be easier to use and reference other RST directives (eg REST API) ✓ Updates when available here or in future project meetings. Gergely Csatari
