2019-02-07 Meeting notes

Date

07 Feb 2019

Attendees

- Adolfo Perez-Duran

Goals

- Review backlog, review status of work items

Discussion items

Item	Notes
Review Dublin Epics	Done

Removing unnecessary dependencies	Team agrees on the following approach:
	
	- First pass
	  - Will focus on migrating the base image
	  - Address (mitigate) package installation at runtime
	  - Sometimes you don't access to internet
	- Second pass
	  - We can suggest the removal of unnecessary libraries and dependencies
	  - We will flag in the JIRA ticket what can be removed in the second pass.

Review Dublin Scope	Done
Backlog review	- Frank Sandoval will work on DMaaP next - Sylvain Desbureaux will work on Portal next
Status of work items	Paul-Ionut Vaduva finished AA&I work. - Will sync up with the team because there is an opportunity to do "bulk" changes. - Common image changes will be added to the CI pipeline - AAI graph-admin image debugging: Java exception showing up on arm to be tackled on the arm pipeline.
Discuss Blockages (if any)
