Minutes

1. Agenda Bashing
   No comments on the agenda, go as planned.
2. Slicing Proposal Update (Borislav Glozman & Chuyi Guo) Enhanced Service Information Model for Nested and Shared Services
     a. Agreed: An error identified to be correct in the pyparus diagram: the name of serviceinstanceprofile and sliceinstancprofile should be exchanged.
     b. Agreed: Remove the ccvpnprofile for now and come back when have more specific requirements from that usecase.
     c. Kevin: Latency should be generic attributes in serviceprofile.
     d. Gil & Andy: Need to go down to resource level and have a complete proposal. Suggested to have another discussion to address that in resource IM call.
     e. Borislave: Need to leave the call early. Will have another meeting on this later. Will upload the slides.
3. Nested Service Update (Kevin Scaggs & Chuyi Guo) Composite / Atomic Service
     a. Agreed: aligned with the common root.
     b. Agreed: Remove attachment for now.
     c. ServiceinstanceDescription: further check with Kevin.
     d. Model attributes for service instance: further check with Chesla and Kevin.
     e. vfcstatus: agreed on not having component specific attributes. need to check with Chelsa before we merge this vfcstatus with orchestrationstatus.
