Notes

- Discussed test plans and timeline. Winlab test lab is being set up. To meet pairwise test timeline, decision to install in Windriver. We are getting very good support from the ONAP Integration Test team.
- Shankar PN showed us the Windriver set up. Recommendation is to use SB02.
- Test team uses Rocket chat. url for that is: 52.168.69.155:3000/group/onap-integration
- Testing progress will be documented on wiki.
