MultiCloud R4 Deliverables for RC2 Milestone Checklist

The following items are expected to be completed for the project to Pass the Release Candidate Milestone.

This template must be filled out for every Release Candidate Milestone (RC0, 1, 2, x)

RC Release Candidate Milestone overview is available in wiki.

- 1. Use the "Copy" and "Move" options (available under the ..., top right of this page) to duplicate this template into your project wiki.
- 2. Fill out the Yes/No column
- 3. Provide link to evidence (when necessary)

Practice Area	Checkpoint	Yes /No	Evidences
Product Management	Are all tasks associated with the release been marked as "Closed" in Jira?	Yes	Key Summary T Created Updated Due Assignee Reporter P Status Resolution No issues found
	Have all findings from previous milestones been addressed?	N/A	Provide link to JIRA findings
Development	Have all Defects of priority Highest and High been in status "Closed" in Jira?	Yes	T Key Summary Assignee Reporter P Status Resolution Created Updated Due No issues found
	Are all JIRA issues used as a reference in a commit in status "Closed" in Jira?	No	
	Is there any pending commit related to High priority issues older than 36 hours in Gerrit? In case there are messages going back and forth between authors and reviewers, it is acceptable to be above 36 hours.	No	
	Are all the Jenkins jobs successfully passed (verify + merge jobs)?	Yes	https://jenkins.onap.org/view/multicloud/

Has the project team reside the project team resident team	team reach the Automated U Test Code Coverage expectation? (Refer to artifacts available in S ar) Has the team delivered all their release artifacts in Ne s Release reg There should at least ONE version of ear artifacts available in N us Release reg Check the certification expiry of your application.
