

colocated-devices

The **"colocated-devices"** query allows a client to provide A&AI a physical server and retrieves all other physical devices in the same location along with details on their physical interfaces and links.

Input	Output	Users	Release(s)
pserver	pservers pnfs p-interfaces physical-links		Beijing

Details

- [Example payload](#)
- [The Traversal](#)
- [Example Output](#)

Example payload

```
{
  "start": [
    "cloud-infrastructure/pservers/pserver/{hostname}"
  ],
  "query": "query/colocated-devices"
}
```

The Traversal

Only objects at the end of a line will be returned.

```
pserver
pserver > p-interface
  p-interfaces > physical-link
pserver > complex > pserver
  pserver > p-interface
    p-interface > physical-link
pserver > complex > pnfs
  pnfs > p-interfaces
    p-interface > physical-links
```
