

Weekly meeting (07/25/2019)

	JIRA	Owner	Status
1	 MULTICLOUD-457 - Updating AAI upon successful instantiation of resource bundle CLOSED Updating Virtual inventory upon successful instantiation of resource bundle	Kiran Kamineni	In Progress
2	 MULTICLOUD-577 - Add support for logging CLOSED Add support for logging	Kiran Kamineni	Transfer to Milind's team
3	 MULTICLOUD-586 - Figure out how to keep track of dependent resources OPEN Figure out how to keep track of dependent resources	Kiran Kamineni	In Progress
4	 MULTICLOUD-599 - Cache kubernetes clients instead of creating one everytime OPEN Cache kubernetes clients instead of creating one everytime	Kiran Kamineni	
5	 MULTICLOUD-654 - Convert two part api to a single multipart API OPEN Convert two part api to a single multipart API	Kiran Kamineni	
6	 MULTICLOUD-662 - Add Find/Get method to get instance for a particular profile CLOSED Add Find/Get method to get instance for a particular profile	Kiran Kamineni	
7	 MULTICLOUD-676 - Monitor Resources and Update AAI and any other data stores OPEN Add support for monitoring resources created	Kiran Kamineni	
8	 MULTICLOUD-677 - label resources created via instances CLOSED label resources created via instances	Kiran Kamineni	Patch in review
9	 MULTICLOUD-746 - Use docker like names to identify instances instead of random strings CLOSED Use docker like names to identify instances instead of random strings	Kiran Kamineni	

10	<div>  MULTICLOUD-693 - Cloud Security and Authentication using ISTIO CLOSED </div> <p>Cloud Security and Authentication using ISTIO</p> <p>Subtasks:</p> <div>  MULTICLOUD-740 - Provide Helm chart for ISTIO installation CLOSED </div> <p>Provide Helm chart for ISTIO installation</p> <div>  MULTICLOUD-744 - Modify helm charts for micro services to enable Auto istio-injection CLOSED </div> <p>Modify helm charts for micro services to enable Auto istio-injection</p> <div>  MULTICLOUD-743 - Testcase to Create users and give them access to only specific resources - Documentation CLOSED </div> <p>Testcase to Create users and give them access to only specific resources</p> <div>  MULTICLOUD-744 - Provide Authentication and Authorization by OAuth (Insider Cluster) CLOSED </div> <p>Provide Authentication and Authorization by OAuth (Insider Cluster)</p>	Pramod Raghavendra Jayathirth	
11	<div>  MULTICLOUD-684 - OVN Network Operator CLOSED </div> <p>OVN Network Operator</p>	Ritu Sood	<p>Work in Progress.</p> <p>CRD is defined and documented.</p> <p>Currently working on converting the existing code operator sdk framework</p>
12	<div>  MULTICLOUD-474 - OVN Provider Network and Routes operator IN PROGRESS </div> <p>OVN Provider Network and Routes operator</p>	Ritu Sood	<p>CRD's are defined and documented.</p>
13	<div>  SO-2440 - investigate the aai update schema used by workloads CLOSED </div> <p>investigate the aai update schema used by workloads</p>	Eric Multanen	<p>In Progress</p> <p>Examples are being documented here: AAI Update after Resource Instantiation#ExampleofAAIdataforvFW(non-K8S)usecase</p>
14	<div>  SO-2409 - Investigate calls used to update AAI CLOSED </div> <p>investigate calls used to update AAI</p>	Eric Multanen	<p>In Progress</p> <p>Examples are being documented here: AAI Update after Resource Instantiation#Heatbridgecode</p>
15	<div>  SO-2084 - Determine heat template needed to avoid preload for k8s workload CLOSED </div> <p>Determine heat template needed to avoid preload for k8s workload</p>	Eric Multanen	
16	<div>  SO-2027 - Distribution error for type SO for CLOUD_TECHNOLOGY_SPECIFIC_ARTIFACTS CLOSED </div> <p>Distribution error for type SO for CLOUD_TECHNOLOGY_SPECIFIC_ARTIFACTS OPEN</p>	Eric Multanen	
17	<div>  SO-4448 - Support v1 and v2 vnf adapter api CLOSED </div> <p>Support v1 and v2 vnf adapter api</p>	Eric Multanen	
18	<div>  SO-1450 - support for secure communications between SO and Multicloud CLOSED </div> <p>support for secure communications between SO and Multicloud</p>	Eric Multanen	

19	 MULTICLOUD-804 - Investigate running closed loop with K8S vFW CLOSED	Eric Multanen	
	Investigate running closed loop with K8S vFW		
20	Add Jira Update wiki for broker issue	Liang Ding	
21	 MULTICLOUD-639 - KUD plugin.sh test fails for vnf instantiation as cloud-region not found CLOSED	Konrad Baka	In review
22	<input checked="" type="checkbox"/> MULTICLOUD-676 - Tweak install scripts to enable clean reinstall on the same machine CLOSED	Konrad Baka	Could be set as done
	MULTICLOUD-676		
23	<input checked="" type="checkbox"/> MULTICLOUD-686 - Enable testing for working plugins during installation CLOSED	Konrad Baka	In progress/in review
	MULTICLOUD-686		
24	<input checked="" type="checkbox"/> MULTICLOUD-707 - Provide KUD-testing CI visibility at gerrit review level CLOSED	Konrad Baka	On hold (waiting for LF response)
	MULTICLOUD-707		
25	<input checked="" type="checkbox"/> MULTICLOUD-708 - Verify proper work of vFW services in demo/tests CLOSED	Konrad Baka	In progress
	MULTICLOUD-708		
26	 MULTICLOUD-709 - Updating the vFW_EdgeX_documentation CLOSED	Konrad Baka	In review
	MULTICLOUD-690
