Yang Download Service

Requirements

- get yang files/spec of devices located in the SDN-Controller schema cache ($ODL_HOME/cache/schema) (Files are stored by yang-tols always in format "urn@version")
- get additional specs, mainly basic yang specs, because normally not available in cache/schema. (Filename format similar to cache/schma)
- request based on module name and optional version
- response Content-Type: plain/text
- if file not found: 404

Request	Description	
GET /yang-schema/{modulename}	get latest yang file for module	
GET /yang-schema/{modulename}/version	get version or nearest later of yang file for module
