## Agenda Items

START RECORDING

	Title	Raised By	Status	Last discussed	Notes
1					<p>1) We need a repo strategy</p> <p>a) No new repos</p> <p>b) Existing empty repos should be locked (gap, eis, tabular-data-service, gap, etc) - <a href="#">Giulio Graziani</a> please comment if there is an immediate plan to contribute into those repos</p> <p><a href="#">James Forsyth</a>: At this time, there are no immediate plans to contribute these.</p> <p>c) Consolidating existing repos - probably not</p> <p>2) We need a maintenance strategy</p> <p>3) We need a versioning strategy</p> <p>a) Parent POM just for AAI that sets versions for common dependencies (including aai-common deps). Inherits oparent, and inherited by all components</p> <p>4) We need responsible parties for each repo / component</p> <p>5) Strategy for oparent dependency management</p>
2	ui_view role in AAF	<a href="#">James Forsyth</a>	IN PROGRESS		<div><input checked="" type="checkbox"/> <a href="#">AAI-2475</a> - [sparky] Add AAF bootstrap data for AAUI <span>CLOSED</span></div> <div><input type="checkbox"/> <a href="#">AAF-986</a> - Add AAI ui_view role to AAF <span>CLOSED</span></div>
3	AAI Impact in R6 - MDONS Use Case	<a href="#">Xin Miao</a>	IN PROGRESS	2019-09-19	<p>Introduce MDONS Use Case <a href="#">Multi-domain Optical Network Services</a> and its impact on AAI in Frankfort <a href="#">AAI MDONS Proposal for Frankfort Release</a></p> <div><input checked="" type="checkbox"/> <a href="#">AAI-2623</a> - CCVPN: MDONS Use Case in Frankfurt <span>CLOSED</span></div>
4	AAF autocert	<a href="#">Pavel Paroulek</a>	ON HOLD	2019-09-12	<p>Work-in-progress <a href="https://gerrit.onap.org/r/c/aai/oom/+96156">https://gerrit.onap.org/r/c/aai/oom/+96156</a></p> <p>TODO:</p> <ul style="list-style-type: none"><li>restclient should support reading AAF passwords</li><li>AAF should expose passwords in .password file</li><li>application.properties needs to be updated</li></ul> <p>The above is also mentioned in the gerrit comments</p>
5	No free nodeports in the 302XX range	<a href="#">Pavel Paroulek</a> <a href="#">Venkata Harish Kajur</a>	ON HOLD	2019-09-10	<p>The aai-oom template forces all aai components to use 302XX port range, but it seems that this range is fully allocated <a href="#">OOM NodePort List</a> (except 2 instances where the port allocation is striked through - not sure what that means).</p> <p>We should discuss how to enable aai components nodeport allocation in aai-oom or circumvent nodeport usage via HAproxy (as suggested by <a href="#">Venkata Harish Kajur</a>).</p> <div><input checked="" type="checkbox"/> <a href="#">AAI-2624</a> - Add graphgraph to haproxy configuration <span>CLOSED</span></div>

6	Helm Chart Common Templates	Venkata Harish Kajur	ON HOLD	2019-08-29	<div>  <del>OOM-1936</del> - Helm Chart Generation <span>CLOSED</span> </div> <p> <a href="https://gerrit.onap.org/r/c/oom/+91553">https://gerrit.onap.org/r/c/oom/+91553</a>  <a href="https://gerrit.onap.org/r/c/aai/oom/+91550">https://gerrit.onap.org/r/c/aai/oom/+91550</a> </p> <p>Use of common templates in the helm charts and have it driven from the values.yaml since all the helm charts are identical except the following things such as volumes, volume mounts, ConfigMap and secrets.</p> <p>The goal is to extract all that information in the values.yaml file and use common templates to enable more consistency.</p> <p>In each of the individual helm charts, we have a filebeat sidecar container, when creating a new helm chart, they just have to say if their chart should enable it or not in the values.yaml.</p>
7	AAI Use Cases	Ranvijay Singh			
8	Return codes and messages for WS	Pavel Paroulek	ON HOLD	25th Apr 2019	<p>Is there a guide for the description of the error message and the error codes? How are new error states (message + code) added?</p> <ul style="list-style-type: none"> <li><input checked="" type="checkbox"/> William LaMont will send James Forsyth the output of a script that formats the error.properties file to make a wiki page and readthedocs</li> <li><input type="checkbox"/> James Forsyth should commit that script and create a wiki for the error properties</li> </ul>
