

# 2019-12-04 [ExtAPI] Meeting notes

## Date

04 Dec 2019 at 15:00 UTC

**Note time is 15:00 GMT = UTC now**

Meeting Link: <https://zoom.us/j/719188490>

## Discussed

- **Recording:** [zoom\\_0.mp4](#)
  - **Chat Log:**
- M1 planning Scope : [EXTAPI R6 - M1 Release Planning](#)
- discussion around support for macro mode Service instantiation with [Sunil Kumar Biradar](#) who has offered to work on EXTAPI-258. This Jira will be broken up into 3 tasks, with a parent Story. Plan to draft high level design/ppt on macro mode csar, Service Order and associated SO calls.
  - Related Jiras are [EXTAPI-369](#) - Passing Instance params for SO Macro request **CLOSED** ,  
[EXTAPI-368](#) - Preparing the request payload (action = add) for calling SO macro flow **CLOSED** ,  
[EXTAPI-367](#) - Identify whether the Service is of A-la-carte or macro type **CLOSED**
- Discussion around java 11 compile enforcement with [Matthieu Geerebaert](#) who will check with brian freeman on INT-1352 and its impacts for External API. Matthieu working on [EXTAPI-370](#) - Java 11 & oparent 3.0.0-SNAPSHOT **CLOSED**
- Note NBI moving to use common mariadb galera cluster [EXTAPI-348](#) - Use common mariadb galera cluster **CLOSED**
- Second discussion ( on our second call 😊 ) with Emanuelle Sarris and [Johanne Mayer](#) around ODM, and its possible inclusion in Frankfurt pending resources. Also discussion on Performance Mgmt in terms of API specifications applicable for ONAP , TMF 628 / 657, ETSI SOL 005 PM Mgmt ,..... [Adrian OSullivan](#) look at high level comparison of TMF 628 & ETSI SOL 005 and show next meeting. Maybe modelling impact [Andy Mayer](#)

Next week:

- Examine TM Forum specs such as TMF 641 v18.5 (e.g., added service type) Should we group services to service type?

Last week:
