Minutes:

- Agenda bashing:
    - ves spec update:
        - check again next week
    - allotted resource:
        - AP: would call for final comments
    - meeting record:
        - AP: Xu will check with LFN on the account issue
    - check attendee's availability for the following weeks:
        - proposal: Dec 23 - Jan 5 would not do any formal changes to the models
- Discussed items:
    - PNF instance model:
        - would update later
    - Modeling Glossary:
        - The meeting with doc team is re-scheduled to this week (doc project call on Thursday)
        - feedback is welcomed on the wiki page: Modeling sub-committee Contributions
    - Modeling Process discussion:
        - continue working on the M2 milestone process
            - suggest U/C teams which have data model work to reserve a time slot in the modeling subcommittee call to present the changes and seek advices
            - how to socialize the clean model (suggest to have a presentation/discussion on the U/C or U/C realization call)
            - also need to socialize with PTLs (however, currently the PTL call is overlapped with IM call), perhaps notice them by email or have joint call
