

[portal-platform] 02-12-2020 portal weekly meeting

Attendees:

Lorraine Welch, Mamtha Sabesan, Rupinderjeet Singh, Swapnali, Leimeng Shi, sujit

When: Occurs every Wednesday from 9:00 AM to 10:00 AM. (UTC-05:00) Eastern Time (US & Canada)

Where: <https://zoom.us/j/895776501>

Agenda:

Today:

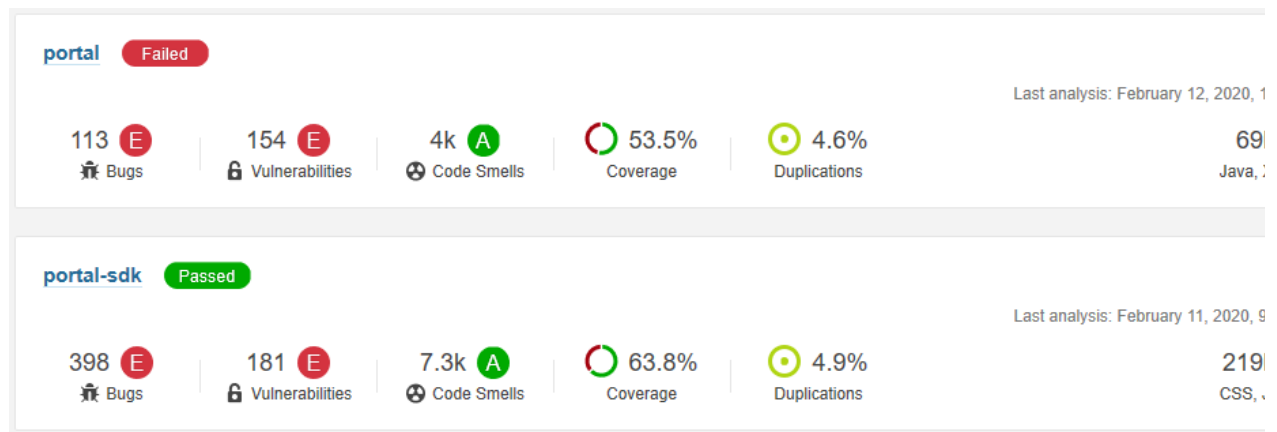

- Set up demo for the new SDK to show the Robot framework team -Leimeng, Deepansha and Sireesha
- progress of Angular UNIT test cases (email from Mamtha Sabesan - mamtha.sabesan@in.ibm.com)

Sunder has been working with the IIBM team - Pom.xml file entries are now known

Portal is failing in sonarcloud code coverage is still below 55%

angular coverage still not showing up - <https://gerrit.onap.org/r/#/c/portal/sdk/+101522/> - by Friday focusing on sdk

overlay component test cases involve raptor Mamtha (ms199u) and Leimeng to communicate

- PORTAL-806 <https://gerrit.onap.org/r/#/c/oom/+101121/> merged
- PORTAL-796 Casandra login/password wrong in docker-entypoint.sh for running cql scripts - tmemporary fix - sunder disabled Music
- PORTAL-739 Integrate the new oparent into the build process - status?
- AAI-2772 for creating ui_view in AAF - AAI is requesting instruction on how to do this - Lorraine sent email to Jonathan Gathman to inquire on the process - no response
- results of the most recent ONAP codebase license scans. These are based on a scan of the repos as of February 3. The key findings, as well as the overall license summary, can be found at the following address: <https://fscanning.org/reports/onap/onap-2020-02-f4c81f6f-ea27-4c91-8b8e-3e59b30e3275.html>
- Portal-276, Portal-218 - Sujit is working on

Prior:

- Wind River - ONAP Portal running in Integration Release Daily with Image: 10.12.5.2:5000/onap/portal-app:2.6.0 - ask Sunder when we will have a new image; based on testing in this environment Portal-653 Can't access AAI from Portal was marked as delivered; Created AAI-2772 asking AAI to register UI's new role "ui_view" in AAF
- Check Sunder commits in Wind River - Lorraine - It's time for new image 3.0
- Cassandra issue - Portal-796 - Lorraine and Sunder on Thursday will continue to work this
- Integrate the new oparent into the build process - Portal-739
- PORTAL doesn't work correctly when using default k8s ingress - Portal-806 - Sunder sent email to OOM to add a flag, we need to set the flag to true in helm chart

- [Portal SDK usage](#) - Leimeng will followup - KOTAGIRI, RAMPRASAD <rp5662@att.com> replied back to her and said: "I have used portal SDK ver 2.6.0 in my local dev env without any issues. CCSDK-dashboard will be updated in ONAP with this portal SDK version. I will update the JIRA when I submit code for review."
- gerrit reviews: <https://gerrit.onap.org/r/#/q/project:portal/sdk> and <https://gerrit.onap.org/r/#/q/project:portal> - Lorraine will merge the test cases in SDK today - Done but there are 3 that need attention before they can be merged; sent email concerning this.
- Robot framework is being set up by Deepansha and Sireesha - no new feature need to be tested. regression testing is needed - Sunder will connect Deepansha with someone in MT - what about new Angular in SDK raptor - Leimeng will work this, when ready a demo will be given to Deepansha and Sireesha
- First get existing existing robot scripts to work, then address SDK
- <https://nexus3.onap.org/#browse/search=keyword%3Dportal> - how do we get the portal-BE there - read <https://wiki.onap.org/display/DW/Independent+Versioning+and+Release+Process>
- Wind River is UP: The WindRiver lab that we used so far for ONAP testing has been moved to a new location, so we need to change the IP address in the ovpn file from 192.55.48.241 to 146.152.204.133. Please upload the ovpn file again into your ovpn client to make changes effective. Your ovpn client may ask you to reinsert your username and password, you should have them in the original configuration package that Stephen Gooch sent you when you were granted access to the Intel VPN.
- Sec- askulnerability going forward need to be addressed by creating Jira tickets in the backlog and as time permits developers should make the upgrades
- Try deploying Portal/AAI in local VM - Lorraine, let Dominik know - at a minimum you need to deploy Portal and AAF
- AAI changed role name, it needed to get into AAF - Leimeng will check
- Angular code coverage needs to be at 50%
- Robot framework is being set up by Deepansha and Sireesha

Sonar coverage stats: The reports will now be posted under: <https://sonarcloud.io/organizations/onap/projects>

- ✓ **PORTAL-778** - Document current upgrade component strategy **CLOSED** Document current upgrade component strategy - assigned to MANOOP - on vacation
- ✓ **PORTAL-779** - Validate that SECCOM Comp Analysis and Vulnerability Tables are up to date **CLOSED** Validate that SECCOM Comp Analysis and Vulnerability Tables are up to date - assigned to Lorraine - ask Manoop
- ✓ **PORTAL-780** - SECCOM Password removal from OOM HELM charts **CLOSED** SECCOM Password removal from OOM HELM charts - reassigned to Dominik Mizyn
- ✓ **PORTAL-781** - SECCOM HTTPS communication vs. HTTP **IN PROGRESS** SECCOM HTTPS communication vs. HTTP - assigned to Dasari Anusha

- Arundathi: can participate testing (junit test - sonar coverage reach 55+ by M4, which is Feb 20, 2020)
- ✓ **PORTAL-416** - Need to add junit testcase files **CLOSED** she started ; for the angular code ask Sunder ask where it is; is it committed to gerrit ? Lorraine will send an email to him.
- Anusha: HTTP to HTTPS tasks - ✓ **PORTAL-781** - SECCOM HTTPS communication vs. HTTP **IN PROGRESS** ; for external facing apps: portal-app and sdk; ask Sunder about the certificates needed.
- Sireesh/Anusha/Deepansha will work on
 - robot automation test ✓ **PORTAL-782** - make sure all Automated tests already written still work **OPEN**
 - ✓ **PORTAL-783** - Create new robot framework tests for new screens **OPEN**
- ~~Leimeng - to check sdk version used in AAI, U UI, MSB with PTLs?~~ [Portal SDK usage](#)
- Sunder - asked all team to be able to access Wind river environment; send access instructions - send email to Gooch, Stephen <stephen.gooch@windriver.com> and ask for access to windriver for ONAP Portal testing.
- Dominik will make junit tests; database changes need to be made first.
- Sunder - Can we switch to Java 11 for entire Portal and SDK? Otherwise Dominik cannot move further with two different versions of Java in workspace.
- New version of sdk 3.0.0 will be released in Frankfurt (with major upgrades to Angular and Springboot).
 - will be available in Frankfurt - components can upgrade in later releases.
- Dominik to propose the new docker Portal-BE to fit in the portal helm charts. He created docker-compose file - how does it fit with helm charts; contact Lorraine to discuss.
- Frankfurt release draft requirements review - [Requirements for Frankfurt - road map](#)
- Documentation on Robot test needed; now UI tests only, 2 or 3 tests for BE

Track the Frankfurt checklist tasks -

Key	Summary	T	Created	Updated	Due	Assignee	Reporter	P	Status	Resolution
-----	---------	---	---------	---------	-----	----------	----------	---	--------	------------

PORTA L-770	Assess Python3 migration	✓	Oct 15, 2019	Oct 25, 2019	Unassigned	None	=	CLOSED	Done
PORTA L-764	Announce any planned API changes, Data model changes AND notify other components	✓	Jul 17, 2019	Oct 30, 2019	Unassigned	None	=	CLOSED	Done
