Discussion items

Item	Who	Notes
Policy CLC		Use of POLICY-CL-MGT and DCAE-CL-RSP topics. There were code commits in April 2019 re. DCAE-CL-RSP. We will followup re. status of what messages should be posted on DCAE-CL-RSP and POLICY-CL-MGT and decide accordingly for new message for clc_deny message. Suggestion from Pam that SON use cases should use separate DRL file and manage it since SON CL have more complexity.
Winlab Status		Waiting for extra VM resource till available
Rel 7		Need to prepare for presentation to ArchComm.
