EXTAPI	Architecture	Adrian OSullivan	Maintained	No Change	N/A			Architecture Guide		
EXTAPI	Offered APIs	Adrian OSullivan	Maintained	Minor Update	N/A			Offered APIs		
EXTAPI	Consumed APIs	Adrian OSullivan	Maintained	Minor Update	N/A			Consumed APIs		
EXTAPI	Installation	Adrian OSullivan	Maintained	No Change	N/A			Installation		
EXTAPI	Developer Guide	Adrian OSullivan	Maintained	No Change	N/A			Developer Guide		
MSB	Architecture	HuabingZhao	Maintained	No Change	N/A			Architecture Guide		
MSB	Offered APIs	HuabingZhao	Maintained	No Change	N/A			Offered APIs		
MSB	Consumed APIs	HuabingZhao	Maintained	No Change	N/A			Consumed APIs In the Amsterdam release, MSB does not consume any APIs provided by other ONAP components.		
	Installation	HuabingZhao	Maintained	No Change	N/A			Installation		

Procedure

M1

1. Find JIRA task attached to M1 Epic for your project, if you haven't already done so.
2. In the table above, fill in
    - project name
    - doc title,
    - doc owner (use Confluence @ notation for name, e.g., David McBride)
    - current doc state
    - activity planned for release
3. Update status of JIRA task as Done

M2/M3

1. Find JIRA task attached to M2 Epic for your project, if you haven't already done so.
2. Note that this task applies to new documents only (i.e., "New" in Current Document State column). If this is not a new document, just enter "N/A" in the Preliminary Documentation Completed column in the table above.
3. For new documents, at a minimum create a placeholder document (e.g., document with a title, or an outline), and commit to the repo. Add a link to the gerrit to the Preliminary Documentation column in the table above.
4. Update the status of the JIRA task as Done.

Post M4

1. Find the dates for the two documentation hackathons.
2. The document owner should plan on attending at least one of the two hackathons.
3. Enter a green checkmark in the appropriate column in the table above for the hackathon that was attended.

RC2

1. Find JIRA task attached to RC0 Epic for your project, if you haven't already done so.
2. Add a link to the document in ReadTheDocs in the appropriate column in the table above.
3. Update the status of the JIRA task as Done.
