START RECORDING

	Title	Raised By	Last discussed	Notes
1	Java 11	rodrigo lima	8/18	Data-router, camel issue. Component is trying to use older versions. Venkata Harish Kajur will touch base with the SME internally on how to run this locally.
2	Model-loader/Babel & v20 OOM chart update	Fiachra Corcoran	8/18	Tanya required for tomorrow to discuss this, and Venkata Harish Kajur and William Reehil are working on getting schema service 1.7.4 out for v20.
3	Multi-tenancy Use Case	Neil Derragh	8/18	Existing concept of owning entity vs. tenant Chandra Cinthala needed to be engaged tomorrow on some of the schema related questions. Example DSL: <code>pnf(>owning-entity('owning-entity-name','name1','name2','name3'))</code> How to add roles for clients in ONAP on Resources/Traversal - need a new filter If custom queries are required to be used, that area will have to be updated.
